PART I.

Land Compensation.

No. R. 7510-13—L. R. 25-15-50, DATED 2ND FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 8255, dated 24th December 1915, from the Revenue Commissioner in Mysore, recommending sanction to the proposals made by the Special Land Acquisition Officer for the appropriation of a portion of certain kavals and land belonging to the Palace for giving land compensation to raiyats displaced by the Cauvery Reservoir, on certain conditions

Order No. R. 7510-13—L. R. 25-15-50, dated 2nd February 1916.

The proposals submitted by the Special Land Acquisition Officer relate to the undermentioned lands belonging to the Palace:—

120 acres out of the Bebibetta kaval, Krishnarajpete Taluk.
12 Do Malligere kaval, do.
40 acres in Chikdevahalli, Hunsur Taluk.

The Palace Controller states that the extents of land referred to may be subdivided as may be required and given away for cultivation to the expropriated raiyats on condition that the assessment thereon is [illegible] payable to the Palace and that no inconvenience is caused to the Palace in utilizing the remaining portion of the kavals for Palace purposes.

2. The Special Land Acquisition Officer considers this arrangement to be a feasible one, specially as it does not involve other lands being granted in exchange to the Palace. He therefore requests that the required area may be subdivided at Government cost and granted to the expropriated raiyats for permanent cultivation in exchange for their dry lands submerged by the Reservoir. Both the Deputy Commissioner, Mysore District, and the Revenue Commissioner in Mysore, support the proposals. Government approve of the utilization of the lands referred to above in the manner proposed.

V. R. THYAGARAJA IYER,
Secy. to Government, Rev. Dept.

To—The Revenue Commissioner in Mysore.
The Secretary to Government, Public Works Department.
The Deputy Commissioner, Mysore District.

No. R. 7545-7—L. R. 25-15-51, DATED 4TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with the letter No. 6852, dated 2nd December 1915, from the Revenue Commissioner in Mysore, submitting for orders, together with his opinion, certain proposals made by the Special Land Acquisition Officer, Cauvery Reservoir Works, for granting loans to raiyats whose houses and lands have been acquired for the Cauvery Reservoir.

Order No. R. 7545-7—L. R. 25-15-51, dated 4th February 1916.

The concessions recommended by the Special Land Acquisition Officer are in addition to those already sanctioned by Government in the case of owners of submerged lands or houses and relate to the grant of loans to :—

(1) raiyats taking up new lands in exchange, as well as owners of large plots of land newly made irrigable by the construction of the Reservoir, for improving their lands even in cases where they are not actually encumbered;

(2) poorer classes of raiyats for building new houses, on the security of such houses; and

(3) labourers who are indebted to large land-holders, to redeem themselves from their indebtedness.

2. The Deputy Commissioner of the Mysore District is not in favour of the grant of loans now proposed by the Special Land Acquisition Officer on the grounds that if the proposal is sanctioned, the scheme will practically amount to one of money compensation instead of land compensation as intended by Government and that the loans are not likely to be recovered. The Revenue Commissioner agrees with the Deputy Commissioner.

3. Government observe that the concessions already afforded to holders submerged lands appear to be ample. Besides these, the rules issued under the Land Improvement Loans Regulation and Section 194 of the Land Revenue Code, provide for the grant of loans for the improvement of land and for building houses in tracts newly made available for cultivation. If loans are granted on a liberal scale under these rules, it is believed that most of the difficulties pointed out by the Land Acquisition Officer will disappear. If, however, there are any cases deserving of special treatment outside these rules, the Deputy Commissioner may submit a list of such cases periodically, *i. e.*, once a quarter, for the orders of Government giving full details in each case as regards the concessions proposed and the securities offered.

4. Government are not inclined to sanction the proposal of the Land Acquisition Officer to grant loans to indebted labourers, as this does not form part of the scheme for the resettlement of the drowned-out raiyats.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Paragraph 17 of the rules for the grant of land under the scheme for the creation of large land estates issued with Government Order No R 4009-21—L R 522-13-5, dated 1st December 1914, stating that a mutchalika should be taken from every grantee setting forth the conditions of the grant

Order No. R. 7661-71—L. R. 373-15-1, dated 8th February 1916.

Government are pleased to direct that the mutchalikas referred to above be taken in the form appended to this order.

2. The Superintendent, Government Press, is requested to keep a stock of 100 forms in English and 250 in Kannada and to supply copies to the Deputy Commissioners of Districts on indents received from time to time.

READ—

Letter No. 1373, dated 25th April 1914, from the Secretary to the Mysore Economic Conference, submitting for the orders of Government the proposals of the Agricultural Committee of the Economic Conference for the creation of large self-contained landed estates in the State.

(Printed as accompaniment with its enclosures.)

No. R. 4009-21—L. R. 522-13-5, DATED 1ST DECEMBER 1914.

ORDER THEREON.—After careful consideration of the suggestions of the Agricultural Committee on the subject of the creation of self-contained farms, Government are pleased to approve generally of the scheme and to issue the accompanying rules, tentatively for a period of five years, for the grant of lands thereunder. The rules will be published in the Gazette.

2. The Revenue Commissioner, the Secretary, Economic Conference, and the Depu Commissioners of Districts are requested to give wide publicity to the rules, and applications for the grant of lands under the rules should be promptly dealt with.

3. A report should be submitted at the end of one year as to how far the people in the State have availed themselves of the facilities granted by the rules and whether, and, if so, in what respects the rules may be revised.

D. M NARASINGA RAO,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Secretary, Mysore Economic Conference.
The Revenue Commissioner in Mysore.
The Excise Commissioner in Mysore.
The Deputy Commissioners of Districts.
The Superintendent, Amrut Mahal Department, through the Military Secretary to His Highness.
The Superintendent, Mysore Revenue Survey and Settlements.

ACCOMPANIMENT No. 1.

Rules for the grant of land under the scheme for the creation of large land estates.

1. Each estate will consist of one or more survey numbers situated in a compact block not less than 50 and not more than 200 acres, provided that no block shall contain more than 50 acres classed as wet or garden land.

2. Where a block consists of both dry and garden lands, and it is not possible to have them contiguous, each class may be in a separate block, situated within a reasonably convenient distance.

The following classes of land will be made available for forming such estates :—

(*a*) Assessed waste lands.

(*b*) Unassessed lands not allotted for any communal purpose.

(*c*) Bechirakh villages.

(*d*) Gomal lands which may be made available without prejudice to the interest of the village cattle.

(*e*) Date and forest reserves and Amrut Mahal kavals which are not required by the departments concerned.

3. A list of all available lands of the classes described above will be published in the Gazette from time to time by the Deputy Commissioners and applications invited therefor. But applicants will be free to select lands not so notified, and apply to the Deputy Commissioner for their being granted under these rules.

No. R. 7661-71- L. R. 378-15-1, dated 8th February 1916.

4. Persons desirous of taking up lands under the scheme should, after selecting the lands required by them, apply to the Deputy Commissioner of the district in which the lands are situated with a rough sketch or map of the lands selected by them showing also the boundaries thereof.

5. Each application should contain the following information :—

(*a*) Whether the applicant is a native of Mysore, or whether he has settled down in Mysore and how long he has resided there ;

(*b*) what capital he is prepared to invest ,

(*c*) whether he intends to introduce any new crops or new or improved agricultural processes ;

(*d*) whether he means to undertake any special agricultural industries, such as dairy farming, cattle breeding, etc., and

(*e*) whether he is likely to require the advise of the Agricultural Department.

6. Whenever an application is received for any block not advertised in the Gazette as available, a notice of such application will be published in the Gazette.

7. No application will be disposed of before the expiry of three months after a description of blocks applied for and available has been published in the Gazette.

8. An upset price will be fixed for each block but it will be discretionary with Government in cases in which a large outlay is required to bring the lands under cultivation or for other reasons, to allow the upset price to be paid in instalments or in exceptional cases of hardship to remit it altogether.

9. Where more than one application are received for the same block, it will be sold by public auction.

10. When an application has been received, the Deputy Commissioner, after causing such enquiry as he may consider necessary to make, shall forward it to Government through the Revenue Commissioner with his recommendation for sanction.

11. Lands granted under the scheme will be held free of assessment for the first five years, on $\frac{1}{8}$th, $\frac{1}{4}$th, $\frac{1}{2}$, and $\frac{3}{4}$ths assessment during the 6th, 7th, 8th and 9th years, respectively, and on full assessment from the 10th year and onwards from the date the land is taken possession of by the applicant.

12. The successful applicant will be at liberty to use a part of the land in providing pasturage for the cattle, house sites for building houses for agriculturists employed on the estate and in erecting farm-houses and other buildings which may be considered necessary for the better cultivation of the land or its more convenient occupation for purposes of agriculture. The assessment will however be payable on the whole block granted to the applicant according to Rule 4.

13. The grantee should bring under cultivation 50 per cent of the area remaining after deducting the portion utilised in the manner referred to in Rule 12 above within the first five years from the date of occupying the block and a proportionate area every year of the remaining period, *viz.*, five years.

14. The grantee should also put up farm-houses and cattle sheds within the first year of the grant. But the Deputy Commissioner may relax this condition if he is satisfied that the applicant is otherwise making strenuous efforts to work the farm.

15. No private alienations by sale, gift, mortgage or otherwise of the blocks will be permitted or recognised by Government and no loan will be sanctioned by Government on the security of the land included in the estate before full assessment is paid and title-deed granted by the Deputy Commissioner.

16. Each estate created under these rules will be regarded as a single unit and may not be partitioned without the sanction of Government; and a breach of this clause will render the whole occupancy liable to forfeiture.

17. A mutchalika should be obtained from every grantee setting forth the conditions of the grant and any breach thereof will render the grant liable to be cancelled by Government.

18. The Agricultural Department will, on application through the Deputy Commissioner, give free of cost such advice as may be conducive to the better cultivation of the holding.

19. Grants under these rules will be made only to *bona fide* subjects of the Mysore State or to those who have settled down permanently therein as active agriculturists; and Government reserve to themselves the power to reject any application without assigning any reason.

Notices in Revenue Appeal Cases.

No. R. 7672-767 L. R.

GENERAL AND REVENUE SECRETRIAT,
Dated Bangalore, 8th February 1916.

CIRCULAR.

It has come to the notice of Government that notices in Revenue appeal cases issued from the Secretariat for service on the parties are not served on them in time and the originals thereof returned to the Secretariat before the date of hearing. As this has retarded the speedy disposal of appeal cases besides causing inconvenience and expense to one or the other of the parties, Government direct that special arrangements be made in future to ensure that notices are served on the parties concerned in time and the originals thereof returned so as to reach the Secretariat at least a day before the date of hearing.

By Order,

V. R. THYAGARAJA IYER,
Secy. to Govt., Rev. Dept.

To -The Revenue Commissioner in Mysore
The Deputy Commissioners of Districts
The Amildars and Deputy Amildars.

Drinking Water Wells.

No. R. 7985-8002—L. R. 15-15-108, DATED 16TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 5612-21—L. R. 15-15-87, dated 6th December 1915, withdrawing certain amounts from the current year's village improvement allotments of the several districts for being transferred to the Drinking Water Wells Fund and directing that all grants made for well works during the current year should be debited to the Drinking Water Wells Fund instead of to the Village Improvement Fund.

2. Government Order No. 4517-25—L. B. 12-15-12, dated 22nd December 1915, issuing instructions regarding the debiting of all expenditure in connection with drinking water wells whether new or incomplete to the Drinking Water Wells Fund.

3. Letter No. 237, dated 10th December 1915, from the Deputy Commissioner, Kolar District, soliciting instructions in regard to the adjustment of the expenditure already incurred during the current year on account of well works sanctioned under the Village Improvement Scheme last year and in the current year prior to the issue of the Government Order of the 6th December 1915, read above.

Order No. R. 7985-8002—L. R. 15-15-108, dated 16th February 1916.

The expenditure already incurred on well works during the current year, whether on account of incomplete works of the preceding year or of new works sanctioned from village improvement funds prior to the issue of the Government Order of the 6th December 1915, referred to above should also be transferred to Drinking Water Wells Fund.

2. Bills duly paid for from the Village Improvement Fund on account of such works will be regarded as duly paid for by the President of the District Board under paragraph 5 of Government Order No. 800-10—L. B. 12-15-1, dated 26th July 1915.

3. The procedure in respect of incomplete as well as new well works has been clearly laid down in the Government Order of the 22nd December 1915, read above.

Grants-in-aid for the Construction of Village Reading Rooms.

No. R. 8040-51—L. R. 15-15-107, DATED 17TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 8893, dated 15th January 1916, from the Revenue Commissioner in Mysore, submitting for orders copy of letter No 720, dated 7th January 1916, from the Deputy Commissioner, Mysore District, requesting to be informed whether grants-in-aid may be sanctioned out of the Village Improvement allotment for the construction of reading rooms in villages.

Order No. R. 8040-51—L. R. 15-15-107, dated 17th February 1916.

Government do not consider it desirable that grants should be sanctioned from the village improvement allotment for the construction of buildings for reading rooms as a general rule in every case. In special cases, however, where the need for a building is great, grants may be sanctioned under the following conditions :—

(1) The Village Improvement Committee should undertake to maintain the building in proper repair at their own cost.

(2) The Government grant will be limited to one-third of the total cost of the building, subject to a maximum of Rs. 500 in any single case.

Large Landed Estates.

No. R. 8223-36—L. R. 399-15-1, DATED 23RD FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Rule 8 of the Rules for the grant of land under the scheme for the creation of large landed estates appended to Government Order No. R. 4009-21—L. R. 522-13-5, dated 1st December 1914, directing that an upset price be fixed for each block.

Order No. R 8223-36—L. R. 399-15-1, dated 23rd February 1916.

Government consider that their previous sanction should be obtained to the amount of upset price fixed by the Deputy Commissioner, and they are therefore pleased to direct that Rule 8 of the above rules be amended as follows:—

"8. An upset price will be fixed for each block by the Deputy Commissioner with the sanction of Government. It will, however, be discretionary with Government in cases in which a large outlay is required to bring the lands under cultivation or for other reasons, to allow the upset price to be paid in instalments or in exceptional cases of hardship to remit it altogether."

Right of grazing in the bed of the Kainadu village tank.

No. R. 8410-13—L. R. 716-14-11, DATED 29TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ AGAIN—

Government Order No. R. 3991-3—L R. 8-10-59, dated 25th January 1912, directing that a joint inspection be made of the locality and a report submitted to Government by the Deputy Commissioner of the Chitaldrug District conjointly with the Superintendent of the Amrut Mahal Department, regarding the decision arrived at by them in the matter of the long pending dispute between the Amrut Mahal Department and the villagers of Kainadu village, Hosdurga Taluk, in regard to grazing in a certain portion of the Kainadu tank bed.

2. Government Order No. R. 6824-6—L. R. 8-10 65, dated 8th February 1915, observing on a perusal of the records submitted by the Revenue Commissioner on the subject that the Amrut Mahal Department has been amply provided with grazing ground in the locality and that in the absence of proof of the asserted right of the Amrut Mahal Department to graze in the tank bed, the usual privilege of the villagers to graze their cattle in their tank bed must prevail.

READ—

Letter No. 3515, dated 9th March 1915, from the Military Secretary to His Highness the Maharaja, forwarding letter No. 288, dated 27th February 1915, from the Superintendent, Amrut Mahal Department, stating that though he did his best, the joint inspection could not take place, that the right of Amrut Mahal Department to graze its cattle in a certain portion of the Kainadu tank bed is borne out by old records of the Department and other evidence and that the right of the Department should be continued in fact in the interests of the Department cattle and that the Government Order of the 8th February 1915, may be revised accordingly.

2. Correspondence ending with the following letters, *viz.*, (1) No. 221, dated 7th October 1915, from the Superintendent, Amrut Mahal Department, through the Military Secretary to His Highness the Maharaja, (2) No. 260, dated 25th November 1915, from the Deputy Commissioner, Chitaldrug District, and (3) 6801, dated 1st December 1915, from the Revenue Commissioner in Mysore, submitting the Memorandum of a joint report by the Deputy Commissioner and the Superintendent, Amrut Mahal Department, that from the documentary evidence available, it seems that the Amrut Mahal Department has long been in the enjoyment of the disputed portion of the tank bed, villagers also used to graze their cattle on the portion in dispute, particularly when the Department cattle were away and that from this long amicable dual enjoyment each party developed an idea that the disputed portion was exclusively its own and that considering the needs and claims of both the Amrut Mahal Department and the villagers, it would be best in their opinion to give the disputed portion to the Amrut Mahal Department in exchange for a suitable portion of the neighbouring Valakaval of the Department to be made over in favour of the village cattle and stating that most of the objections of the villagers to this joint decision are met by the report and that the question of providing a pathway to the Volakaval land to be given over to the villagers, will be attended to at the time of finally demarcating the portions in question.

Order No. R. 8410-13—L. R. 716-14-11, dated 29th February 1916.

Considering all the circumstances of the case, Government approve of the joint recommendation made by the Deputy Commissioner and the Superintendent, Amrut Mahal Department, after a careful consideration of the needs and claims of both the parties and direct that in supersession of their order of the 8th February 1915, the portion of the tank bed in dispute may be left undisturbed in the enjoyment of the Amrut Mahal Department and that the portion of the Volagaval proposed to be given over for the village cattle should hence forth be constituted into a separate survey number and treated as gomal of the Kainadu village.

No. R. 8410-13—L. R. 716-14-11, DATED 29TH FEBRUARY 1916.

2. Both the portions in question should be clearly demarcated by well maintained fences or hedges so as to give no room for friction between the villagers and the Amrut Mahal Department and a suitable pathway providing access to the new Volagaval village gomal created.

3. Necessary alterations in the Revenue Survey and Amrut Mahal records should be effected.

Revision Settlement of the Maddagiri Taluk.

No. R. 7777-88—L. S. 3-14-4, dated 9th February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No 43, dated 23rd September 1915, from the Superintendent of Revenue Survey and Settlements in Mysore, submitting proposals for the revision settlement of the Maddagiri Taluk of the Tumkur District.

(Printed as Accompaniment I)

2 Letter No. 4062, dated 18th September 1915 from the Revenue Commissioner in Mysore, stating that the above proposals may be adopted with certain reservations.

(Printed as Accompaniment II)

3 Letter No 71, dated 5th October 1915, from the Superintendent, Revenue Survey and Settlements in Mysore, forwarding copies of correspondence on the subject with the Deputy Commissioner, Tumkur District, and Revenue Commissioner

(Printed as Accompaniment III)

Order No. R. 7777-88—L. S. 33-14-4, dated 9th February 1916.

The present proposals relate to the revision of the assessment of the villages in the Maddagiri Taluk, as it stood at the original settlement introduced in the year 1876 and affect 283 Government villages, of which 267 are in the present Maddagiri Taluk, 15 in the Goribidnur Taluk and 1 in the Koratagere Sub-Taluk.

2. The tract under report is bounded on the north and partly on the east by the British district of Anantapur and in the north-west a block of about 7 square miles of British territory is completely enclosed within this taluk. The climate is healthy and the average rainfall is 23·26 inches per annum.

3. Surface springs called Talaparigas form a special feature of the taluk. Tanks and wells are also numerous. Ragi is the staple crop. Horse gram and paddy come next.

4. The village roads have been considerably improved since the original settlement of the taluk. A new road between Dodballapur and Hindupur and the Bangalore-Guntakal Railway constructed since the original settlement, touch this tract at the extreme east and the Bangalore Harihar line lies not far from the border of the taluk. These additional communications have indirectly brought the taluk nearer the markets for its produce.

5. The population of the taluk went down by 30 per cent in the first five years of the settlement, owing to the great famine of 1877-78, but has since risen steadily and in 1911 it was 11,516 or 14·7 per cent more than in 1871.

6. The agricultural resources of the taluk have also appreciably increased and there has been some expansion of cultivation as well, increasing the extent and assessment of occupied lands, showing an increase of 8 and 6 per cent respectively, since the year of the original settlement. The prices have risen between 30 and 100 per cent for the different staple products. The taluk has on the whole improved in prosperity since the original settlement, though the progress was greatly impeded by the famine of 1877-78 and the revenue collections which decreased from Rs. 1,50,899 in 1877-78 to Rs. 1,23,017 in 1881-82 had again risen to Rs. 1,69,845 in 1909-10.

7. The Survey Superintendent proposes to leave the old grouping undisturbed, and the maxima and the average rates proposed by him for each group are

shown in the following statement along with those adopted at the original settlement :—

Land	Group	By original survey as per collections of 1909-10		By revision survey	
		Maximum rate	Average rate	Maximum rate	Average rate
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Wet ...	I ...	8 0 0	4 8 6	9 0 0	5 1 6
	II ..	8 0 0	4 6 1	9 0 0	5 15 2
	III ..	8 0 0	4 1 1	9 9 0	4 10 8
	Total ..	..	1 5 10	.	1 13 9
Dry ...	I ..	2 0 0	0 12 7	2 8 0	0 15 9
	II .	1 12 0	0 11 0	2 3 0	0 13 9
	III ..	1 8 0	0 9 10	1 11 0	0 12 3
	Total .	..	0 10 9		0 13 4
Garden ...		16 0 0	5 4 9	12 0 0	4 14 0

8. The old maximum wet rate which is the same in all the groups is proposed to be raised by one rupee as was done in the revision settlement of the Tumkur and the late Koratagere Taluks, while the maximum rate for garden lands is proposed to be reduced from Rs. 16 to Rs. 12 per acre. The groups have reference to the dry rates only, and the maxima are proposed to be raised by 8, 7 and 6 annas in the 1st, 2nd and 3rd groups respectively. These proposals have the effect of raising the average wet rate by 11 per cent or Re. 0-7-11 per acre and the average dry rate by 24 per cent or Re. 0-2-7 per acre, while the average garden rate will be decreased by 8 per cent or Re. 0-6-9 per acre. The average assessment of all classes of lands will rise from Rs. 1-9-11 to Rs. 1-13-3 per acre so that there will be a net increase of Rs. 17,803 for the entire taluk, *i.e.*, 10·18 per cent over the collections of 1909-10.

9. Both the Revenue Commissioner and the Deputy Commissioner of the Tumkur District consider that the proposals of the Superintendent of Revenue Survey and Settlements are, on the whole, fair and may be adopted. The Deputy Commissioner has, however, recommended that some consideration should be shown in respect of—(1) lands that are commanded by tanks that have silted up,

(2) lands depending on talapariges that have dried up, and

(3) such of the lands depending on the Jayamangali river, as have deteriorated in value owing to the construction of the Rampur dam at Holavanahalli.

The Survey Superintendent states that the reclassification with regard to water already conducted, meets the first class of cases, and that the other two classes of cases will be again re-examined at the time of the final settlement, and such concessions as may be found necessary granted.

10. Government are pleased to sanction the rates proposed by the Superintendent of Revenue Survey and Settlements. The revised rates will be announced as soon as possible and brought into effect from the year 1916-17, with the usual guarantee of thirty years.

11. A special report should be submitted to Government immediately after the announcement of the revised rates, on the results of the further examination conducted in accordance with para 9 *supra*.

No. R. 7777-88—L. S. 36-14-4, dated 9th February 1916.

Accompaniment I.

Letter No 43, dated 23rd September 1914, from D. K. Darashah, Esq , B A., Superintendent, Revenue Survey in Mysore, to D. M. Narasinga Rao, Esq., B A., B.L., Officiating Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to submit in advance for the consideration of Government six copies of my Report, together with six copies of illustrative map, containing proposals for the revision of assessment of 283 Government villages of the Maddagiri Taluk of the Tumkur District.

I have as usual sent copies of the same to the Revenue Commissioner and the Deputy Commissioner for their opinion, and shall on receipt of their replies submit the same to Government with such remarks as may be called for.

Enclosure.

Letter No. 42, dated 23rd September 1914, from D. K. Darashah, Esq., B A , Superintendent of Revenue Survey and Settlements in Mysore, Bangalore, to D. M. Narasinga Rao, Esq., B.A., B L , Officiating Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to submit proposals for the revision of assessment of the villages of the Maddagiri Taluk as it was constituted at the time of the introduction of the original settlement, reported on by Major Anderson, then Deputy Superintendent, and sanctioned in Chief Commissioner's Proceedings No. 2868—Rev. 91, dated 3rd June 1876.

2. The number of Government villages in the taluk at the time was 282. Six of these were subsequently merged for administrative convenience, into six others, while five villages, which, though excluded from settlement as being purely Amrut Mahal kavals, have recently been brought under cultivation, are to come within our reckoning now; we have also to add two other villages, once Inam, but converted into Sirkar villages and settled as such in the years 1884 and 1885. The net result therefore is that we have 283 Government villages to deal with. The Inam villages within the tract, 59 in number at the original settlement, are now 57, but my proposals will leave them out of account. The Maddagiri Taluk according to present boundaries includes 267 of the Government villages, the Goribidnur Taluk 15 villages, and the Koratagere Sub-Taluk 1 village.

3. *Position, etc.*—The tract under report is roughly an oblong in shape, bounded all along its north and about a half of the east by the Madras district of Anantapur, for a total length of some 80 miles. On the remainder of the east, it adjoins the Goribidnur and Dodballapur Taluks, on the south the Koratagere Sub-Taluk, and on the west the Sira Taluk. A block of about 7 square miles forming part of the Anantapur District, happens to be completely enclosed within Maddagiri Taluk, in the north-west.

4. *Physical features.*—The eastern half of the tract is plain country with undulations not of a striking character; the west half is scattered over with hills which form a link in the well-defined chain traversing the Province from south to north approximately. The two highest peaks within the taluk are at Maddagiri 3,935 feet, and Midagesi 3,376 feet. The rocks are generally dark of colour, and contain iron which is said to have been smelted in different parts of the Tumkur District in bygone times, from the sands washed down by the streams.

There is no forest to speak of; the hills are covered with scrub jungle which nowhere attains the dignity of forest; but the taluk has an abundance of topes and isolated shady trees, except in the Ittigedibbanahalli hobli where only the *bevu*, and the *jali*, useful for fattening cattle, are to be seen. Date groves are confined to the Dodderi hobli in the west. The North Pinakini or Pennar which has its rise in the Nandi hills, just skirts the taluk for a short distance in the east. An affluent of this river, the Jayamangali, with its origin in the Devarayadurga hills, runs nearly parallel to it, and joins it near Hindupur beyond the frontiers. Between the two, the Kumudvati or Kunda, likewise joins the Pinakini in British territory. The lie of the country is generally from south-west to north-east. But the centre comprising large portions of the Kodagenhalli and Puravara hoblis is almost level. The south-west corner of the taluk is more elevated than the rest of it. A strip about 4 miles broad along the west, slopes off into the basin of the Tungabhadra, but all the rest of the tract drains into the North Pennar. So far as the soil is concerned, the taluk takes very high rank in the Province. Loamy soil of all shades of darkness is the common feature of the east and the centre; along the streams it becomes good black *Regur*. Towards the west and the north, red soil with an admixture of sand predominates. Gravel too is to be noticed in these parts. Clay and alkaline matter, faults frequently encountered in neighbouring taluks, are not in evidence in Maddagiri Taluk.

No. R. 7777-88—L. S. 36-14-1, dated 9th February 1916.

Irrigation.

5. *Surface springs.*—The western regions may be called the home of the *talaparige* (surface spring), and the raiyats have taken every advantage derivable from this bounty of nature. It has at the same time to be borne in mind that the channels leading from these springs are generally of pretty great length, and take much labour to be kept in working condition. The Dodderi and Midagesi hoblis, and parts of the Kasaba and Puravara hoblis enjoy the benefits of surface springs to the fullest extent, though it must be admitted that when successive seasons of indifferent rainfall occur, the benefits that might otherwise have accrued to the raiyats from this source become attenuated. The existence of the hills, and the structure of the subsoil are responsible for these fine springs, which frequently come to a head in favourable spots in the valleys. While a number of *talaparige* are situated within tank beds, asserting themselves after the tank water is finished, many others are reinforced by tanks situated higher up, usually at a distance of about 300 or 400 yards. They keep flowing from two to five months after the rains, and are a great boon when tanks happen to dry early. Some of these *talaparige* have scarcely ever been known to fail In the more level country they become less common, but the springs in the bed of the Jayamangali in the east, furnish water through channels, to about fourteen villages. A high class *talaparige* is capable of feeding *Vaisakhi* crop on about 35 acres of land.

Tanks.—There are in the taluk 257 tanks, of which 62 are major and 195 minor. Five of the former and 158 of the latter are yet unrestored, showing that the problem of minor tanks presses for solution in Maddagiri as much as it does in other maidan taluks. Several of the tanks have silted to some extent, but it may be stated with confidence that they are generally better off in this respect than those of Tumkur Taluk, where silting is more heavy and rapid. Some of them are found linked in series of three and four. The lowest in the series have silted least. The Jayamangali river serves the more important of the tanks in the east of the tract, in keeping the stock of water replenished through *Katkalves*, when the showers of rain are heavy. The private enterprise tanks, all minor, are 16 in number, and an Annual remission of Rs. 321 from the assessment is allowed for their upkeep. It is to be seen from a statement furnished by the Public Works Department that a sum of Rs. 2,89,618 has been spent on irrigational works in the taluk since the original settlement took place. The tanks of the taluk are, on the whole, in fair condition. The extension of irrigation under the *nirsardi* system, the alterations made in feeder channels and *kodi* levels, the silting up and deterioration due to other natural causes, and on the other side, the improvements effected by repairs and extensions, have combined to render an up-to-date valuation of the water-supply necessary, and this has been carefully effected at reclassification.

Wells.—Wells are a very important feature in the tract, and the reason is not far to seek—the comparative readiness with which underground springs are tapped. Those used for irrigation number no less than 2,062, and there can be no question as to their being relied on with more confidence than those in Tumkur, Sira and Koratagere Taluks are. Under tanks of fairly good capacity, it is the wells that make it possible to secure the much coveted *Vaisakh* crop, by coming to the help of the raiyat after about the middle of the hot weather. Had they been of the class usually met with elsewhere in the district, the *Vaisakh* crop could not have been heard of as frequently as it is In favourably low spots, *dhruvapairu* gardens may be seen depending on no other source whatever. The subsoil in the Dodderi and a large portion of the Midagesi hoblis consists of very stiff gravel or rock; consequently wells in these parts are not revetted Elsewhere the soil is softer, requiring the support of a lining of brick and mortar, or more generally of stone. *Gerse, i.e.*, a lining of interwoven reeds, is resorted to where the raiyat cannot afford the expense of stone revetment, or when, as a preliminary to revetment, he waits to see if the spring tapped be good enough to justify an outlay on permanent construction. The cost of revetment varies from a small amount to, occasionally, over a thousand rupees. I think it would be safe to say that an average among revetted wells in the taluk has cost the raiyat about Rs. 200. In the hilly *talaparige* regions water is found almost flush with ground surface during the monsoons. Late in December it goes down 10 feet, still an easy depth from the agricultural standpoint; but with the progress of the hot weather the water continues to abate, till towards the close it is not reached for a depth under 30 feet, in the less favourably situated areas. The wells are practically all of the *Kapile* class.

6. *Crops and cultivation.*—The principal of dry crops is ragi. Pulses, jola, horse gram navane, oilseeds and tobacco come next in importance. The cultivation of groundnut for export purposes has begun to take a hold on the peoples' mind. Groundnut requires no high order of soil or abundance of rainfall, to come off well; it delights in a low class sandy soil, and three or four showers of timely rain ensure an outturn far more remunerative than any from the staple dry crops. In wet land, rice of course holds the first place. Two crops of rice are

taken only where the tank supply is good, and a good well is ready to supplement it. But a *Karteek* crop of *nat* ragi, or some other less valuable crop, followed by the *Vaisakh* rice, is by no means uncommon in the better conditioned of the fields. Several varieties of rice are produced. The *bhangaradakaddi* need only be mentioned as the finest and most famous, but it is grown in limited quantities. That which is very commonly grown is the *halublu* which, though only second best, is freely cultivated because it is said to be less liable to disease than other kinds are, and yields more grain than husk. A *palla* of any other paddy yields 45 or at most 46 seers of grain, but the *halublu* yields nearly 52 seers. Moreover, this variety turns out very well as *kusalakki* (boiled and dried), in which form rice is in much demand in the Madras Presidency. Sugar-cane is not assiduously cultivated; the whole tract counts just 335 acres of it. With its excellent soils and very fair facilities for water, Maddagiri ought to show good progress in cane growing. But the care and expense involved, coupled with the fact of the raiyat's unwillingness to quit a line of occupation to which he is accustomed, and which has hitherto provided him with a sufficiency, have tended to keep him unadvanced.

The latest issue of the season and crop report gives the following figures as the standard outturn per acre in the taluk, of its two principal articles of produce, and I may add that personal inquiries have led me to very much the same result:—

Rice—6 Khandies (about 21½ pallas).
Ragi 2 Khandies (about 7¼ pallas).

The standard outturn of an acre of sugar-cane land is stated to be 150 maunds of jaggery.

The gardens produce areca, betel, cocoanut and the other commoner fruits such as plantain, mango, jack and lime. Pomegranates and figs and other fruits of a superior kind are a speciality in some villages. Sugar-cane and rice when grown under wells are among garden products not falling within the meaning of the term *Dhruvapairu*. *Dhruvapairu* gardens naturally flourish where the soil is of the second order, red, and the water-supply is propitious. Accordingly the best in the taluk are to be found in the Dodderi hobli. The Kasaba, Midagesi and Puravara hoblis rank second. There is very little of it in the two other hoblis. It would be correct to say that the defective water-supply in Ittigedibbanahalli hobli is responsible for lack of fruit cultivation there, and in Kodagenahalli the unsuitableness of the soil, excellent as it is for other kinds of crop. *Koleroga* and the other diseases to which the arecanut is subject in the Malnad are not known here. The complaint, where there is any, is due to defect in water-supply, while some but not many gardens suffer from sheer neglect. An acre of 400 areca trees yields from 20 to 30 maunds of the nut.

The following table showing the percentage distribution of crops is compiled from the figures supplied by the Taluk Office:—

Jola	2·97
Wheat	0·06
Ragi	37·97
Gram	12·37
Rice	11·29
Other grains including pulses	21·62
Cotton	0·26
Oil-seeds	3·54
Tobacco	0·55
Sugar-cane	0·24
Garden produce	1·26
Miscellaneous crop:—	
Food	4·60
Non-food	3·27
Total ...	10·00

7. *Climate and rainfall.*—Maddagiri Taluk comes within a zone of moderate rainfall. On page 22 of the latest published Rainfall Report the amount gauged at Maddagiri for 42 years is shown to work out to 26·88 inches as the annual average. The figures for the three other Rain Gauge Stations in the taluk are—

	Inches.
Badavanahalli	23·08—19 years' average.
Midagesi	22·63— „ „ „
Ittigedibbanahalli	20·47—18 „ „

The average calculated for the whole of the tract is 23·26 inches. The *mungar* in April and May gives all parts an equal chance, with about 2½ inches of rain. The south-west monsoon which roughly begins in June and ends with August, gives from 2½ to 3 inches each month, the southern and western portions receiving something more and the rest of the area something less. The north-east monsoon in September and October gives on the average 5½ inches each month. The distribution of this monsoon follows a reverse order, for the north half which receives the first offer from the Madras clouds gets, more rain than the south half. Information more interesting still is to be gleaned from the entries on page 23. The annual rainfall at Maddagiri town for the fifteen years ending with 1912 is given there. The *timeliness* of the showers is of course a matter of the first importance in agriculture, but we have no recorded data on this head, and judging solely from the quantity of fall in each year, we may not unreasonably lay down of Maddagiri, that it fared very well in six out of the fifteen years with a rainfall above 30 inches, that it fared well in three other years with rainfall above the average but less than 30 inches, that it fared pretty well in two years with rainfall between the average and 20 inches, and that it fared badly with a fall between 16 and 20 inches during four years. To generalise still further, the good years and the bad in the taluk bear the proportion of 3 to 1.

With the exception of about two months during which the heat is oppressive, the rest of the year is pleasant. Fever, cholera and the plague have not been known to molest the people seriously. The taluk is reputed a perfectly healthly one.

8. *Communications.*—The tract under consideration was at original settlement described as "the richest taluk in the province, but very badly served with roads." It is likely that the latter remark referred almost exclusively to the intervillage communications of the time, for I do not see that any high road, with the exception of one leading to Hindupur, is at all urgently wanted even at the present day. The village tracks themselves have improved within the past thirty-five years, with the result that pack-bullocks, almost the only means of internal traffic before, are now supplanted by carts. It would be absurd to maintain that the system is perfect; the tracks frequently offer much difficulty during the rains, particularly where the soil is of the dark loamy kind which easily turns into slush and bog after a heavy shower. Indeed, I saw in the Amildar's note book a formidable list of subsidiary roads which he proposes to bring into good condition, and no doubt with perseverance and tact he will be able to accomplish much in time. But the great need always has been, just one good road traversing the taluk roughly from west to east, from some convenient point on the road between Maddagiri and Midagesi to the very important mart of Hindupur about 21 miles away to the east. Fortunately, Hindupur is only about 3 miles from the taluk boundary, so that even if this small length of road be not maintained as a high road in British territory, the long section falling within the Maddagiri taluk, if attended to, will be a welcome boon to our people. Such a road could be conveniently found by the villages in the north and the south, many of which under existing conditions find it a very trying business during rainy weather to travel to and from a market town capable of taking anything brought to it and of giving all that is required.

The road between Dodballapur and Hindupur, a comparatively new one, skirts the taluk on the east border for a space of about 3 miles, and is practically useless to the people of Maddagiri. With this exception, no new road has been constructed since the original settlement took place. The roads of pre-settlement times are kept in fairly good condition; they are, the Bangalore-Bellary road running south to north through Tumkur, Koratagere, Maddagiri and Madakasira, crossed by a road from Maddagiri west to Sira, and another south-east to the Railway Station of Tondebhavi.

It is not out of place here to say that the two branches of the Madras and Southern Mahratta Railway,—the Tumkur line opened for traffic in 1884, and the Guntakal line in 1895—have had an important effect upon the affairs of men in Maddagiri Taluk though neither of them actually passes through it. Tumkur Station is so much as 28 miles from Maddagiri and Goribidnur and Tondebhavi on the other line are respectively 25 and 28 miles. Still it is beyond question true that apart from benefits not directly connected with agriculture, an extension of cultivation, a quicker disposal of produce and larger profits therefrom, have come in as a consequence of the railway.

9. *Markets.*—In the interior, the weekly fair at Maddagiri is the only one of any importance; business of the value of about 500 rupees is done there. Miscellaneous things such as condiments, salt, oil, jaggory and vegetables are among the principal of the articles sold and purchased, but not much of grain. The trade of the taluk really takes place in the outside markets of Hindupur in the east, and Tumkur in the south. The areca is almost all borne to Hindupur. The majority of the villages in the north, the east and the east centre, take their surplus produce there and bring back cloths, with some oil and salt. The other parts of Maddagiri Taluk resort to Tumkur, where the merchants buy up everything

brought to it. The draw-back in the matter of markets is that they are not quite near at hand, and in the case of Hindupur, also the absence of an easy road.

10. *Manufactures, etc.*—The taluk has nothing of real importance to show under this head. Maddagiri town has some trade in brass, copper and silver vessels. The iron-smelting of old is extinct because of the Forest Conservancy Rules which have resulted in a lack of charcoal supply, and because imported iron is quite cheap. There are 326 woollen and 293 cotton looms from which quantities of coarse cloth are turned out by a section of the non-agricultural population, about sufficient to meet local demand. The curing of hide and making it into bags for the *Kapile*, gives continuous occupation to a fairly large number of the lowest caste of the people. When 28 cane mills and 63 oil-mills are added, the tale of manufacture and special industry in the tract is all told.

11. *Population.*—The table below gives the history of the population according to the census:—

Year	Population	Gain or loss
1871	78,239	...
1881	54,759	—30 p.c.
1891	69,194	+26·3 p.c.
1901	83,948	+21·3 p.c.
1911	89,755	+ 6·9 p.c.

The figure for the year 1881 shows unmistakably the grievous effects of the great famine, which not only absorbed the natural increase for the preceding decade, but produced also a deficit in the figure for 1881 of 23,480. The following census however proved the hidden vitality in the country, a gain of 14,435 souls or 26·3 per cent over the population of 1881 having been recorded. The progress continued till, in 1901 another large percentage of 21·3 was found to have accrued. At the census of 1911 still further progress was proved, the increase this time however being a comparatively small one of 6·9 per cent. The net result is that the population is now 14·7 per cent larger than it was at the first census in 1871.

The large expansion during the period following the famine is quite intelligible, as illustrating the law of reproduction in a people restored to comfortable circumstances, close upon the heels of an interval of starvation. The percentage for 1901 is a little remarkable, because assuming as I do, that no other factor such as immigration during the decade could have had an influence, the figure strikes me as indicating an abnormally rapid pace kept up for too long a period after the famine, over 20 years. But what is really hard to account for is its being abruptly cut down to 6·9 per cent by the year 1911. While a decline from a high percentage brought on by post famine conditions was only to be expected, it is difficult to see why it should have been so inordinate a fall as one from 21·3 to 6·9, while the rest of the district shows that all the other taluks have risen from 7·64 per cent (Kunigal) to 15·09 (Sira) during the period. There is nothing to suggest that emigration, epidemics or any unusual insanitary causes were at work in Maddagiri during the decade; so that, if one other conjecture be dismissed as being untenable, namely that some kind of error may have crept into the census records themselves, we are left by a wide stretch of speculation to suggest that the number of females of child bearing age during the last decade may have been considerably smaller than that of the preceding one. In the absence of talukwar figures on this head, however, the point has to be given up as undeterminable.

The anomaly pointed out above is about the long drop from a high percentage. It is not implied that an increase of 6·9 per cent is in itself an alarmingly low rate even for a maidan taluk, and all things weighed together, the figures before us bespeak good latent powers of recovery from such mishaps as a bad famine.

The density, 228 per square mile, is another aspect not unfavourable of the population of the tract. It compares with 223 in Koratagere, 149 in Sira, 181 in Tumkur District. 214 in the Eastern Division, and 197 in the Province as a whole. Tumkur Taluk with a density of 257 surpasses Maddagiri, and for good reasons—it is officially the principal taluk in the district, possesses the Railway Station through which the great bulk of the merchandise of

the district passes, and can boast of good climate and a fairly fertile soil. The pressure of population on arable and occupied area are exhibited below :—

	Density per square mile		
	Gross area	Arable area	Occupied area
Tumkur	257	333	430
Koratagere	223	392	542
Sira	149	222	331
Maddagiri	228	425	561

Tumkur, Koratagere and Sira Taluks have been taken into the comparison, as they have had a revision settlement introduced. The only other revised taluk in the district, Pavagada, which is poorly in every respect, and cannot bear a comparison with the tract under consideration, has been left out.

More than 90 per cent of the population is Hindu. The Vokkaligas are numerically the strongest caste, nearly 20,000. The Madiga, the Beda, the Lingayet, the Golla and the Kuruba come next in the order of strength among the more important sections. The Mahomedans 2,323 in number, form about 4 per cent of the total population.

12. *Agricultural resources.*—The details under "houses" in the table annexed indicate among other things, the relative moderateness of the rainfall, in that tiled houses, not very numerous before, are fewer still at the present day. The number of terraced roofs, practically all of mud in these regions, have increased by 5,160, thatched houses too have increased, and on the whole, dwelling places have added 33 per cent to their original strength. Horned cattle have increased by 4 per cent, which is not a small matter when we recollect that some of the neighbouring taluks actually show a decrease, owing partly to the general elimination of inefficient animals, and partly to the advance in the price of serviceable bullocks and cows. Carts have more than doubled their former number, while the old style vehicles (*Hallibandies*) are gone out of use. The increment in ploughs amounts to 20 per cent.

Items			Original Survey	As per resurvey	Increase or decrease
Houses	Tiled		435	42	— 393
	Mud		12,470	17,630	+5,160
	Thatched		3,001	3,500	+ 499
Horned cattle ...	... ..		56,235	58,540	+2,305
Carts	Halli Bandi		236	38	— 198
	Cakkadi		532	1,281	+ 749
	Waddar		...	248	+ 248
Ploughs	... ...		9,431	11,348	+1,017
Wells	Irrigational		..	2,062	...
	Others		..	574	...

Agricultural resources on the whole show substantial advancement, keeping pace with the increase of population, and change of conditions generally which have supervened the tract since the original settlement.

13. *Prices.*—The facts relating to a general rise in the prices of agricultural produce are so well understood, that I am sure no elaborate disquisition is required of me to prove the fact that the price of rice has risen within the past settlement period by at least between 30 and 40 per cent, and that of ragi by 100 per cent. The statement of prices furnished by the Amildar is not complete, figures for many years being wanting; but the statistics published in the Government Gazette of the 16th August 1906 by the Director of Statistics must be accepted as being authoritative; and based upon a systematic supply to him of fortnightly figures by the Deputy Commissoners. The averages there given are for all the districts from the year 1886 forwards, and for the Mysore and the Bangalore Districts alone from 1871 to 1886. Within these fifteen years an advance of 20 per cent has occurred in these two districts, and it stands to reason to say that prices in Tumkur District ranged pretty much on a level with them, if variations from local causes be put out of sight, which must needs have been slight in extent and fairly negligible for our purpose. In the table below are set forth five

quinquennial averages, for the twenty-five years ending with the year 1910, of the prices of the two staple crops of the taluk:—

Years	Seers per rupee		
	Rice		Ragi
	1st sort	2nd sort	
1886-90	11·72	12·91	43·87
1891-95	8·57	9·54	27·96
1896-00	8·08	8·94	23·69
1901-05	8·15	9·16	24·97
1906-10	6·34	7·72	14·99

Statistics for the years following, available only for the two years 1911 and 1912 (Season and Crop Report), fairly confirm the level to which prices had risen in the last of the quinquenniums shown above, rice being 6·52 and 7·87 seers (1st and 2nd sort), and ragi 16·31 seers.

It is clear that an estimate of between 30 and 40 per cent for rice, and of 100 per cent or ragi is a perfectly safe one. The prices quoted are for the District of Tumkur, yet there is nothing to lead us to think that those for Maddagiri are appreciably different. True, the Railway lines are not quite close, but they are not very remote either; and cost of carriage to the markets resorted to, is not so palpable to the raiyat as to produce any serious obstacle to the natural tendency towards equalisation with the other sections of the country. Prices then have risen considerably, and all available evidence shows that they are not liable in the future to run back to anything like the old levels of thirty years ago.

14. *Value of land.*—Extracts from the books of the taluk Registration Office were obtained for cases of sale and mortgage at every 5th year of the settlement period. The result is that 515 cases of sale involving over 70,000 rupees give a proportion of sale amount to assessment of 14 to 1; 322 cases of mortgage involving loans amounting to over 72,000 rupees, work out 15 to 1. The lower ratio in the case of sales is no doubt due to the natural desire of raiyats not to part with lands of the better grades.

Exports and imports.—Paddy, ragi, areca, pulses, jola, ghee, condiments, jaggory and tobacco are exported. The imports are piece-goods, oils and salt.

15. *Miscellaneous.*—The indigenous cattle are not large of size, but are strong and healthy, and are normally not subject to epidemics. Powerful animals bred in Nagamangla, Kankanhalli, and Channarayapatna are sometimes purchased and used for deep ploughing in irrigated lands, and for the *Kapile*. Gomal is abundant, being nearly 50,000 acres in extent and is pretty evenly distributed in the taluk. The price of useful cattle has advanced considerably in recent years, but the raiyat's plan to avoid sudden large demands on his resources, is to take work from young bullocks for a few years, tending them carefully the while, and then to exchange them for younger animals with a small money payment to make up for the difference. A pair of bullocks of the indigenous sort can be had for 50 or 60 rupees, but the large imported kind would cost from twice to four times that amount.

Animal manure is preserved in the usual way chiefly for irrigated land, the surplus going to *Khushki* land which, as a rule, does not want much manure for an ordinary crop. Vegetable manure, the *honge*, is very freely used in wet cultivation *Honge* topes and *honge* trees on the borders of lands, are carefully looked after.

Where land is not cultivated by the owner himself, the custom followed is that known as *Samakor*, whereby the landlord and the tenant share assessment and produce equally often the produce alone is shared, the landlord paying all the assessment.

I think the right sort of feeling has been aroused among the people, with regard to the Co-operative Scheme. Only about six societies have been formed up-to-date, but there are good signs of a recognition by the raiyats of the benefits involved in the movement, and there is a strong likelihood of their taking very kindly to it in the course of time.

16. *Past Revenue History.*—The past revenue history of the taluk is sketched in Statement A appended to this report. The Amildar has not found it possible to give details of occupied and unoccupied lands under the heads of dry, wet and garden for the first twenty years after the settlement; the area and assessment in gross are however available, which is the next best standard to form a judgment by. From the year 1897 onwards, all the details we require have been furnished, and are exhibited in the statement.

The figures illustrate clearly that the blow dealt by the great famine was so severe, that it kept the people depressed for three or four years after it vanished. Progress after that, has been continuous up to date, barring fluctuations of a trivial character appearing now and again in response to a season partially unfavorable, or to some other of the many economic facts which take a part in the raiyat's destiny. A glance through columns 8 and 9 in Appendix A showing

total occupied area and assessment recovered, proves that after the famine-depression period, which we may say continued up to 1881, and almost unbroken record of progress both in occupancy and collection is maintained till 1896, when a cycle of four years commences indicating a set-back, which however is so slight that I might have called it only a pause The forward movement commences again in 1901 and continues to the end, with another small fluctuation in 1906-07. The *babwar* figures under the three classes of cultivation from 1896 onwards, show a decided general movement towards increase in occupied area from year to year, though variations there are and must be, not alone because of the intervention of occasional indifferent seasons, but also because of interchanges occurring in the description of cultivation carried out, that is, of land originally classed as kharab or dry, having been brought under dry, wet or bagayet cultivation during the currency of the settlement. The information in column 10, 'Remissions,' furnishes a good clue as to how the old settlement has weighed on the raiyats, for, excepting in the case of the famine years, the amounts involved are trivial, never once reaching Rs. 400 during the last decade; and these the Amildar explains, include the annual Chauthayi remissions on Private Enterprise tanks, and some partial remissions due to lands granted on *Shraya* conditions. With these facts before us, we are justified in concluding that cases of remission on account of intolerably heavy assessment must, if any there be, be very few indeed.

The annual details given in Appendix A are, of course, useful for minute analytical research, but our object is to find that level in taxation that should be capable of being adopted uniformly in both good and indifferent seasons, for that is one of the fundamentals of the Bombay System of Settlements. And as variations from year to year due to temporary and unessential causes somewhat obsess the understanding of the main tendencies in the past economic history of the taluk, it is a good plan to exhibit the matter in convenient averages. An abstract of Appendix A is accordingly given below, in which the items are lumped and averaged for every five years:—

Year	Government occupied land								Remission
	Dry		Wet		Garden		Total		
	Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment	
1	2	3	4	5	6	7	8	9	10
1876-77	.	.	.	...	. .	Figures not available	96,818	1,59,810	20,952
1877-81 Five years' average	.	.	. .	. .	. .		71,281	1,42,064	4,599

1892-96 Do	1 54,084	+11	.	...	..	...	...		41,061	32,436
1897-1901 Do	1,57,148	+13	38,333	19,783	905	3,784	795	4,059	40,033	27,626
1902-1906 Do	1,62,589	+17	30,991	16,171	681	2,967	618	3,230	32,188	21,771
1907-1910 Four years' average ...	1,64,883	+18	29,513	15,398	479	1,994	553	2,882	30,575	20,274
1909-1910	1,68,457	+21	29,101	15,077	422	1,780	490	2,615	30,013	19,472
Miscellaneous	1,988 1,69,845	+22	...	...	...	...	...	...	...	...

These figures convey a more clear-cut idea of the stages through which cultivation and revenue have passed. Column 12 shows that an advance over prefamine conditions commenced with the quinquennium, 1887-1891, and that uninterrupted progress has been maintained ever since, the last quinquennial average proving an increase of 22 per cent. The entries *re* unoccupied land mark corresponding changes in the inverse way.

17. *Past and present survey.*—There were 19,146 fields at the original survey, which by sub-division at re-survey have become 20,457, showing a moderate increase in number of 1,311. The difference between the original and revised gross areas is 7,766 acres or about 3 per cent; and this is due to large hill *parampoke* numbers having been computed more accurately at revision, and partly to five large kavals having been measured carefully in sections, which were measured on a rough *en bolc* method before, as there was then no cultivation in them. The subjoined table shows how the three classes of cultivable land stood at the two surveys:—

Descriptions	Former survey as per Akarband	Re-survey area	Increase or decrease
Arable dry crop land	1,11,898	1,08,219	—3,679
Rice land	10,578	11,734	+1,156
Garden land	14,304	15,061	+ 757
Unassessed and unculturable land ...	1,07,673	1,17,205	+9,532
Total ...	2,44,453	2,52,219	+7,766

It is seen that so much as 3,679 acres of dry land has been carried over to one or other of the remaining heads. The increase in the wet area is substantial and proves that the growing population has exploited the water-supply to good purpose. The increase of 757 acres in garden land alone is another satisfactory feature. The water-supply to every irrigated field has been revalued on the basis of existing conditions; the soil has not been classed at revision, except in the cases in which old *parampoke* has been taken up for cultivation.

18. *Grouping of villages.*—An attempt has been made in the foregoing paras to present a correct picture of the circumstances of the tract so far as they are essential to the purpose in hand, and I believe they will suffice to elucidate the proposals I am about to make for the revision of the rates.

The first inquiry to be made in this direction is whether the grouping of villages at the original settlement stands in any need of alteration. Grouping proceeds upon such considerations as climate, communications, convenience of situation for trade, and population. No such change in the circumstance of any of the villages has been brought about within the past settlement period as to necessitate any disturbance among the groups. Where there have been changes, they are not of importance sufficient to justify an attempt at re-arrangement. One thing in relation to grouping to be constantly kept in view is, that under our system, a change of groups effected for any but very strong reasons, tends to produce a degree of disparity of incidence, which in case of increase may bring us perilously near to the maximum limits prescribed by Government in their Order of 1903, and in case of decrease, is liable to entail an unjust sacrifice of the Public Revenues, besides exposing us to chances of derision among the raiyats themselves. It will perhaps be suggested as a remedy that the Settlement Officer may, in such a predicament, exercise a moderating function on the assessment of the fields concerned. But an expedient of that sort, if generally resorted to, will tend to complicate settlement work already sufficiently difficult, and will in practice lead to the adoption of a procedure bearing a resemblance to arbitrariness. The proposed remedy really involves a plurality of standards of assessing, which should be avoided by every means. Regrouping therefore should be effected only on very weighty considerations, and never till it is well established that the disposition of villages under the old settlement cannot be tolerated under existing conditions. I have been constrained to go out of the way in offering these remarks because I notice of late, an inclination among critics of the Revenue Department, to suggest somewhat too readily, that certain villages of one group ought to be transferred to another.

19. *Maximum rates.*—The old grouping is retained intact in the case of the Maddagiri Taluk. The annexed table sets forth the number of villages included in each group, and compares the old maximum dry and wet rates with those proposed for the new settlement. To be brief, the villages in the first group are given that rank, generally on account

of the position they occupy with reference to the *kasba* and to the high roads. Those in the second, enjoy one or other of these advantages in a less degree, and those in the third group enjoy them least.

Group	Number of villages	By former settlement		By revision settlement	
		Maximum dry rate	Maximum wet rate	Maximum dry rate	Maximum wet rate
1	2	3	4	5	6
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
I	57	2 0 0	8 0 0	2 8 0	9 0 0
II	117	1 12 0	8 0 0	2 4 0	9 0 0
III	109	1 8 0	8 0 0	1 14 0	9 0 0

The old maximum of Rs 16 for tank-fed gardens is now reduced to Rs 12, and gardens not depending on Government irrigation works are assessed under the rules prescribed for them in Government Proceedings No. R. 3138-46—R. F. 8—1900, dated 24th January 1902.

The dry maxima will under these proposals be raised by 8 annas, 7 annas and 6 annas, for the 1st, the 2nd and the 3rd groups, respectively. The old maxima were themselves moderate in character, and the new maxima compare quite favourably with those adopted in the recently settled Koratagere Taluk, and more so with those taken for the Tumkur Taluk, as the figures below will prove

Taluk	Group I	Group II	Group III	Group IV	Group V
	Rs. a. p	Rs. a. p.	Rs. a p	Rs. a. p.	Rs. a. p.
Tumkur ..	2 12 0	2 10 0	2 8 0	2 1 0	2 0 0
Koratagere ...	2 8 0	2 6 0	2 0 0	1 10 0	..
Maddagiri ...	2 8 0	2 3 0	1 14 0	..	..

There cannot be advanced any good reason for going below the Koratagere maxima in the case of so fine a taluk as Maddagiri. The increase to the maximum in each case amounts to 25 per cent.

In the case of the wet lands, I propose to do no more than to lift the old maximum of Rs. 8 to Rs. 9, the same as was adopted at the revision of the Tumkur and the Koratagere Taluks. Here also, I believe my proposal to be unexceptionable A percentage of 12·5 is thereby added on to the old maximum.

The old garden maximum of Rs. 16 now cut down to Rs. 12, also corresponds with the action taken in revising the garden rates of the Tumkur and the Koratagere Taluks.

20. *Effect of the new rates.*—The effect of the proposed settlement on Government occupied land is shown in the annexed table.

Description	By former settlement			By revision settlement		
	Acres	Assessment	Average rate	Acres	Assessment	Average

Grand Total ...	.....	169,845	1 9 11	.....	.....	.....

The dry average increases by Re. 0-2-7, which must be considered to be a moderate enhancement, though higher comparison with the increase in Koratagere Re. 0-1-8. But this is perfectly natural, since the intrinsic value of the soil is considerably higher in Maddagiri Taluk. Tumkur Taluk with scarcely better soil than what is found in Koratagere, pays a dry average of Re. 0-13-10, *i.e*, so much as Re. 0-3-4 over and above the old rate.

No. R. 7777-88--L. S. 36-14-4, DATED 9TH FEBRUARY 1916.

The advance of 7 as. 11 ps. per acre in the wet rate is due to the combined effect of the excellence of the soil and the standard of water-supply found to prevail at the fieldwar revision classification. The increase is relatively high, but it would be surprising, if in the case of a taluk so distinct from neighbouring tracts, the classification yielded any other result. The enhancement by itself cannot be said to be burdensome, and it is fully justified by the considerable rise that has occurred in prices, since the original rates were fixed.

Very much the same explanation holds good with reference to the gardens. Though all the extreme rates have been cut down from Rs. 16 to Rs. 12, and old and new well gardens have been carefully treated under the prescribed rules, the average per acre is reduced only by 6 as. 9 ps. The fact is, that the old average garden rate in Maddagiri had itself been lower than those for previously settled taluks. In Koratagere for instance, the old average was Rs. 6-5-3 as compared with Rs. 5-5-4 in Maddagiri; hence the reduction in the Maddagiri rate at revision, cannot be as large as it was in the case of Koratagere. The analysis given below will show that the rates proposed for the different kinds of garden land are perfectly reasonable.

No.	Description	As per original settlement			As per revision settlement			Increase or decrease
		Acres	Assessment	Average per acre	Acres	Assessment	Average per acre	
			Rs.			Rs.		
I	Tank gardens	14,319	76,389	Separate figures not available	10,629	61,937	5—13—3	
II	Gardens receiving indirect benefit from tanks, streams, etc.				2,693	7,911	2—12—5	
III	Gardens under self dependent wells				709	1,741	2— 7—3	
IV	Gardens as in III but wells failed				239	395	1—10—5	
V	Old dry cocoanut gardens ...				4	14	3— 8—0	
	Total ...	14,319	76,389	5-5-4	14,214	71,398	5— 0—4	—0-5-0
VI	New gardens under wells sunk since original settlement	...	...	...	817	1,466	1—12—9	
VII	New dry cocoanut gardens ...	...	...	...	2	4	2— 0—0	
	Total ...	14,319	76,389	5-5-4	15,033	72,868	4—13—7	—0-7-9

This statement includes minor inam and waste gardens, not taken into account in framing the table given in the preceding section in which the entries relate only to occupied garden; some difference is consequently to be observed between the totals, but our general conclusions are not thereby affected. The gardens of Koratagere were admitted on all hands to have been assessed with moderation, indeed the Deputy Commissioner thought they had been dealt with too tenderly, and the rates I now propose for Maddagiri compare favourably even with these.

Description	Average rates					
	Koratagere			Maddagiri		
	Rs.	a.	p.	Rs.	a.	p.
I Tank gardens	6	2	8	5	13	3
II Gardens indirectly benefited from tanks, etc. ...	3	2	10	2	12	5
III Gardens under self dependent wells ...	2	8	0	2	7	3
IV Old dry cocoanut gardens	2	10	0	3	8	0
V Gardens as in III but with water-supply failed.	1	8	11	1	10	5
VI New gardens under wells sunk since original survey and new dry cocoanut gardens ...	1	11	8	1	12	9
Total ...	5	1	9	4	13	7

The figures above are convincing; I believe no greater sacrifice in the Maddagiri gardens than Re. 0-6-9 per occupied acre is called for.

No. R. 7777-88 · L. S. 36-14-4, DATED 9TH FEBRUARY 1916.

Effect on groups :—The next statement I give is intended to show how the increase and the decrease in the rates are distributed on the different classes of occupied land in each of the groups.

Class	Description of land	By former survey as per collections of 1909-10			By revision settlement			Increase or decrease	Percentage of increase or decrease in average rates

			1,69,845						

The largest average increase in dry land, Re. 0-3-2, occurs naturally in the first group in which the villages are well situated, and command good means of communication with market places. It must be borne in mind that the grouping adopted for the taluk is concerned only with the dry rates. The former maxima and those now proposed for rice and garden being uniform for the whole of the tract, a difference in the incidence of the wet and garden rates, where it occurs, is accounted for on grounds independent of the grouping principle We see that the average increase in the wet rates in the first two groups in the above table is very nearly the same, 9 annas, and 9 as. 1 p. respectively. In the 3rd group, however, the increase is more moderate (6 as. 7 ps.) owing to the water-supply in the region being generally of a less efficient kind, though the soil is, if anything, superior to that of the other two groups. A noticeable reduction of Re. 1-10-1 per acre or 21 per cent, is made in the garden rate of the first group, because the best gardens in the taluk, and consequently the heaviest assessed under the old settlement are collected here. The net increase per acre on occupied land in the taluk is 3 as. 4 p. or 13 per cent, and this is composed of a 24 per cent increase on the dry average, an 11 per cent on the wet average, and a reduction by 8 per cent on the old garden average.

The net result on the whole of the tract is an increase of Rs. 17,803 or 10·48 per cent over the collections of the year 1909-10. A sum of Rs. 1,388, representing the *Nirasardi*

or temporary water rate levied during the year has been added on to these collections as it should be, because its counterpart is included in the entries for the proposed settlement, where the value of the water is merged in the new assessment.

22. *Assessed waste.*—Particulars relating to Government assessed waste are given in the following table:—

Class	Dry			Wet			Garden			Total			Remarks
	Acres	Assessment	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate	Acres	Assessment	Average rate	
1	2	3	4	5	6	7	8	9	10	11	12	13	14
I ...	3,944	3,069	0 12 5	77	326	4 3 9	40	149	3 11 7	4,061	3 544	0 14 0	
II ...	12,023	8 510	0 11 4	288	1,965	4 11 10	58	195	3 5 10	12,369	10,070	0 13 0	
III ...	14,069	9,009	0 10 3	169	711	1 6 2	89	233	2 9 11	14,327	9,983	0 11 2	
Total ...	30,036	20,588	0 11 0	534	2,432	4 8 10	187	577	3 1 4	30,757	23,597	0 12 3	

Nearly 30,000 acres of dry land are available against a future expansion of population, but there is not much of wet and garden land to spare. The average rates on the available waste are low compared with the averages on occupied land, a state of things that would not exist if the better class of lands had been taxed heavily at the original settlement.

23. *Conclusion.*—I believe that a settlement such as the one I now submit for approval will, at any rate ought to, be received without complaint. While the just claims of the Public Revenues to a moderate share in the increase in agricultural profits have not been neglected, the necessary restraint has been exercised to see that the tax on the land does not operate as a hardship on the raiyat. The taluk in question enjoys advantages of many kinds. The rainfall is moderate and ordinarily sufficient for the kind of cultivation followed, the geological peculiarities of the surface lend themselves to the formation of surface springs on a wide area, and keep the wells well-supplied; the streams are helpful in diverse ways in the regions through which they pass, while the tanks are in very fair condition, a sum exceeding 2,80,000 rupees having been spent during the currency of the settlement period by the Public Works Department alone, on the upkeep of the more important of them. The population, decimated during a bad famine, has nevertheless grown out rapidly within the past three decades, and public health is remarkably good. Village communications have improved with usage, and the railway, hopelessly out of reach before, is brought within reasonable distance on two sides of the tract. The material resources of the people have increased to a notable extent, land has become more valuable, and prices of produce have reached limits that make large profits easy to make. On the other hand, there is the periodical failure of rain to be counted, which ever was and ever will be the bane of a maidan taluk. The lack of a good road to Hindupur has also to be noted as an important grievance which should not be allowed to continue. Putting all these facts together, and having regard to the principle that assessments should be regulated so as to make the payment of them not intolerable in years of indifferent harvest, I think that the mode of settlement proposed will work quite well.

The net total increase will be Rs. 17,803 or 10·48 per cent. A reference to the table given in Section 20 will show that this increase will be shared almost equally by the dry and the wet lands, while the amount on the Bagayet remains practically unchanged. This circumstance is rather unusual; so much are we accustomed to hear of sacrifice of Bagayet Revenue at Revision Settlements, that a few words of recapitulation of the unique circumstances of the gardens of Maddagiri Taluk may be wanted here. The first significant fact about them is that the qualities of the soil, the character of the water-supply and the moderateness of the old assessment have combined to bring about an expansion of 757 acres in the aggregate garden area, that is, inclusive of both occupied and waste, and an increase of so many as 1,100 acres among the occupied gardens alone. I do not know of any taluk hitherto revised that has shown results equally gratifying. The average rate, unoppressive hitherto, has under the proposed arrangement been reduced by 6 as. 9 ps., and the comparative figures given in Section 20 prove that the rates for the different classes of Bagayet are at least in consonance with those recently sanctioned for the Koratagere Taluk. Further, the *halat* has been abolished, by which means a great step was taken in amelioration of the lot of areca growers. Under these circumstances it would be unreasonable to hold that the Bagayet assessment should be any lighter than it is under these proposals.

No. R. 7777-88—L. S. 36-14-4, DATED 9TH FEBRUARY 1916.

24. *Limits of increase.*—The villagewar limit of 66 per cent has been exceeded in the case of the three villages named in the margin. The excess is due not to high rates, but to the extension of wet and garden cultivation.

1. Mundathimmanahalli.
2. Kathijogipalya.
3. Shravanahalli.

25. *Cesses.*—The Local Fund and Irrigation Cesses will according to law be proportionate levies, and distinct from the assessment.

26. The usual appendices inclusive of a map showing among other details the grouping of the villages, are attached to this report.

27. I beg to solicit the sanction of Government to the rates proposed. The settlement will take effect in the year following that in which it is announced.

I have the honor to be,
Sir,
Your most obedient servant,
D. K. DARASHAH,
Superintendent, Mysore Revenue Survey.

APPENDIX A.

Revenue Statement for the 283 villages of the Maddagiri Taluk of the Tumkur District from 1876-77 to 1909-10.

D. K. DARASHAH,
Superintendent, Revenue Survey.

No. R. 7777-88—L. S. 36-14-4, dated 9th February 1916.

From K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

Adverting to the Survey Superintendent's letter No. 127, dated 24th September 1914, forwarding for my opinion an advance copy of the printed report on the revision of assessment of the Maddagiri Taluk and letter No. 538, dated 31st May 1915, from the same officer, forwarding with his remarks a copy of the opinion furnished by the Deputy Commissioner, Tumkur District, I have the honour to state as follows :—

2. The number of villages which are affected by the present proposal is 283 as against 282 at the original settlement. The difference is due to the fact that since then six villages have been merged into six others, five Amrut Mahal kavals have been brought under cultivation and two inam villages have been converted into Government ones. Of the 283 villages, 267 are in the present Maddagiri Taluk, 15 in the Goribidnur Taluk and 1 in the Koratagere Sub-Taluk.

3. *Climate and rainfall.*—The tract is known to be a healthy one. The average rainfall is 23·26 inches.

4. *Crops.*—Ragi is grown on 37·97 per cent of the total area under cultivation. Next in order come horse gram and paddy. Pomegranates and figs are grown in some of the gardens.

5. *Communications.*—In para 9 of Government Order No. 2868-91, dated 3rd June 1876, Government when ordering the levy of the survey rates in the taluk observed as follows :—" The taluk is.....inadequately provided with roads and much of the internal traffic is stated to be carried on by means of pack bullocks " and in para 28 of the same Government Order it was said that the attention of the District Fund Committee should be drawn to the great want of means of communication. But the Survey Superintendent thinks that these remarks apply almost exclusively to the intervillage communications of the time and that only a road connecting Maddagiri with Hindupur is all that is needed. During the currency of the settlement a road was opened between Dodballapur and Hindupur and it skirts the taluk on its eastern side for about three miles. The village tracks have very much improved. The Bangalore-Harihar and Bangalore-Guntakal lines of the Madras and Southern Mahratta Railway are beneficial in a way to the raiyats though the lines do not pass through any portion of the taluk since they enable the raiyats to dispose quickly of the yield of their lands and to earn large profits

6. *Population.*—The population of the tract according to the census figures of 1911 is 89,755 which is 6·9 per cent and 14·7 per cent more than what it was in 1901 and 1871, respectively.

7. *Agricultural resources.*—The number of houses of all descriptions put together has risen by 33 per cent. Horned cattle have increased by 4 per cent, carts by 104 per cent and ploughs by 20 per cent.

8. *The value of lands.*—The value of agricultural lands has also increased considerably.

9. *Area under cultivation and revenue history.*—The area and assessment of the occupied lands have increased by 8 and 6 per cent, respectively. The increase has been perceptible since 1901-02.

10. *Average rates and results of revision.*—The average rates for the several classes of lands are as follow :—

	As per original settlement	As per revision settlement	Increase or decrease
Dry	0 10 9	0 13 4	+ 0 2 7
Wet	4 5 10	4 13 9	+ 0 7 11
Garden	5 4 9	4 14 0	— 0 6 9
Net ...	1 9 11	1 13 3	+ 0 3 4

There is an increase of Re. 0-2-7 per acre in the case of dry lands, of Re. 0-7-11 in the case of wet lands and a decrease of Re. 0-6-9 in that of garden lands. The net result is an addition of Rs. 17,803 to the collections of 1909-10 or an increase of 10·48 per cent. The

No. R. 7777-88—L. S. 36-14-4, dated 9th February 1916.

results of the revision in the taluks of Koratagere, Tumkur and Maddagiri will be seen from the following:—

	Average rate		Increase	Percentage of increase over the total revenue
	As per original settlement	As per revision settlement		
Koratagere ...	1 1 8	1 2 10	0 1 2	4
Tumkur ...	1 3 9	1 5 2	0 1 5	6
Maddagiri ...	1 9 11	1 13 3	0 3 4	16·48

Though the percentage of increase is slightly larger in Maddagiri than in Koratagere and Tumkur Taluks, the rates are by no means higher as can be seen from the following statement:—

	Koratagere	Tumkur	Maddagiri
	Maxima of dry rates.		
I Group ...	2 8 0	2 12 0	2 8 0
II do	2 6 0	2 10 0	2 3 0
III do	2 0 0	2 8 0	1 14 0
IV do	1 10 0	2 4 0	.....
V do	.....	2 0 0	.....
	Maxima of wet rates		
I Group ...	9 0 0	9 0 0	9 0 0
II do			
III do	8 8 0	8 0 0	.....
IV do			
V do	.....		.....
	Maxima of garden rates.		
	12 0 0	12 0 0	12 0 0

11. Seeing that the lands of this taluk are richer in quality than those in Koratagere and Tumkur and that the price of rice has increased by 30 to 40 per cent and that of ragi by 100 per cent, I have no hesitation in agreeing with the Deputy Commissioner that the rates proposed are fair and equitable.

12. While granting that the rates for fair, the Deputy Commissioner observes that some consideration should be shown in respect of the lands that are commanded by tanks that have silted up but the Superintendent of Revenue Survey has taken into account all material circumstances affecting these lands. The Deputy Commissioner then points out that a special treatment should be accorded to lands depending on Talapariges that have died out and on the Jayamangali river in respect of which there has been a change for the worse in consequence of the construction of the Rampur ane at Holavanahalli. The Survey Superintendent states that in regard to these lands he will go into the question at the time of the settlement and grant such concessions as may be found to be necessary. Subject to this reservation the rates proposed may be adopted.

No. 71—Enclosure 4, dated 5th October 1915, from D. K. Darashah, Esq., B.A., Superintendent of Revenue Survey and Settlements in Mysore, to V. R. Thyagaraja Iyer, Esq., M.A., Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

In continuation of my letter No. 146, dated 14th May 1915, on the subject of the Revision Settlement proposals for Maddagiri Taluk, I have the honor to forward the marginally noted communications for the information of Government, and to state that the Revenue Commissioner has in his Memo No. 4063, dated 18th September 1915, furnished me with a copy of his letter No 4062 of the same date addressed to Government wherein he concurs with the proposals formulated in the Settlement Report.

Deputy Commissioner's letter No. 2193, dated 26th May 1915, with enclosures addressed to the Superintendent of Survey.
Letter No. 536, dated 31st May 1915, from the Superintendent of Survey, to the Revenue Commissioner in Mysore.

No. R. 7777-88—L. S. 36-14-1, dated 9th February 1916.

2. It will be seen from a perusal of the second named of the enclosures to this letter, that a suitable general readjustment of the rates on irrigated land recommended by the Deputy Commissioner is precisely the object with which the reclassification of the water-supply was carried out; while the position as regards the talapariges which he says have failed within recent times, and the difficulties of irrigation from river channels said to be due to the management of the Rampur Ane sluice will have to be re-examined by me at Settlement time, as it is obvious that the classers could not have taken account of conditions that had not definitely established themselves at the time of their operations.

3. The Revenue Commissioner and the Deputy Commissioner unite in saying that the rates proposed are fair; I beg therefore that the early sanction of Government may be obtained to the introduction of the settlement, so as to enable me to announce the new rates in the earlier part of the ensuing cold weather.

No. 2193, dated 24th May 1915, from K. R. Srinivasa Iyengar, Esq., M.A., Deputy Commissioner, Tumkur District, to D. K. Darashah, Esq., B.A., Superintendent, Revenue Survey in Mysore.

In reply to your letter No. 128, dated 23rd September 1914, calling for my opinion on the proposals for the revision of assessment of certain villages in the Maddagiri Taluk, I have the honor to state as follows:—

2. I see from your letter to Government that it is proposed to raise the maximum dry and wet rates by 25 and 12½ per cent, respectively, while the average dry and wet rates will be increased about 24 and 11 per cent respectively, the average garden rate being reduced by 8 per cent. Considering that the price of ragi has nearly doubled and that of rice risen by nearly 30 per cent, since the original settlement of the tract, under consideration, was effected, the proposed rates of increase of assessment must be considered on the whole fair and equitable.

3. There are however certain considerations as detailed below, which I think, should be borne in mind in applying the general rates of increase to individual cases.

4. As has been stated in your report to Government the Talapariges form a special feature of the tract covered by the proposals, I am not aware if the lands under them are to be generally subjected to the same rates of increase as the other wet lands in the taluk. In the absence of definite information to the contrary in the report, I have to presume that they are to be, and if so I have to place before you certain grounds on which I consider this class of lands to be entitled to some amount of special consideration. Any one who has travelled in the taluks of Maddagiri and Pavagada in recent years must have noticed how many of the Talapariges in the taluks which once had an abundant supply have, within the last fifteen or twenty years, dried up and failed to act except in year of exceptionally copious rainfall. It is nothing but just that in the case of such Talapariges, the supply from which had either totally failed or had become inadequate and precarious for some years past, the lands under them which have considerably gone down in value, should have the assessment thereon somewhat lightened.

5. In the course of my Jamabandi of the Pavagada Taluk, some instances were brought to my notice, in which, though the Talapariges had been out of action for many years, the wet assessment on the lands under them were continued without reduction during the recent revision settlement of the taluk. I am inclined to think that this was very hard on the poor owners of these lands and I desire that a similar mistake should not be made in respect of the tract now under consideration. The annexed statement received from the Amildar of Maddagiri contains a list of Talapariges in the taluk which are reported to have been out of action for the past five years (some of them being so, for about twenty years). In respect of these Talapariges it is necessary that the diminution of the water-supply from them as also the precarious nature of the supply should not be lost sight of and should be taken into due consideration in revising the rates of assessment on the lands under them, and I would therefore urge that unless this has been done already, necessary action may be taken in this respect.

6. Analogous to the case of Talapariges referred to, is that of the numerous tanks whose capacity has got reduced since the original settlement owing to the gradual silting up of the beds or other causes. It is a well known fact and it has been the subject of repeated representations to Government at the Dasara Representative Assembly and elsewhere that in the case of such tanks the supply of water from them has become quite inadequate for the atchkat under them. It is not unreasonable for the occupants of the atchkat in these cases to claim that in view of the inadequacy and precariousness of the water-supply, either a portion of the atchkat should be converted from wet to dry or if this cannot be done, the

assessment should be reduced to compensate for the diminished supply. At present I believe that this aspect of the question is not receiving adequate attention at the Survey Settlement probably because, it is considered to be outside the scope of the Survey Department. It seems to me that the Revision Settlement is about the best time for the determination of the question and I would therefore suggest that it may be taken into due consideration in revising the wet and garden rates under the tanks.

7. I would also urge for due consideration, the case of lands irrigated by the Jayamangali river and the channels drawn therefrom, which are brought to notice by the Sub-Division Officer in charge of the Maddagiri Sub-Division in his letter No. 215, dated 2nd December 1914, a copy of which is herewith annexed for your perusal.

8. Before concluding the letter, I have to express my sincere regret for the long delay in sending it, which was due partly to the pressure of Jamabandi and other urgent and heavy work and partly to the desire on my part to acquaint myself fully with the condition of the taluk before venturing to express an opinion on the proposals made by you after careful and mature consideration.

Letter No. 215, dated 2nd December 1914, from the Assistant Commissioner, Maddagiri Sub-Division, to the Deputy Commissioner, Tumkur District.

With reference to your docket No. 928—Mis., dated the 19th November 1914, forwarding for an expression of my opinion copy of letter from the Superintendent of Revenue Survey to Government *in re* the revision of the assessment of 283 Government villages of the Maddagiri Taluk, I have the honor to state that I read with great interest the Survey Superintendent's letter to Government in the matter and that the proposal contained therein is a moderate one, which may be accepted. I am only afraid that the same conditions that prevailed at the original settlement with regard to the wet and garden lands irrigated by the Jayamangali river and the channels drawn from it do not prevail now on account of the construction of the Rampur Ane at Holavanahalli across the Jayamanagali river. I hear that there is a Government Order to the effect that one at least of the scouring sluices of the ané should be left open. If this is so, it would be all right. If not, the lands referred to deserve special consideration.

The enclosures to the letter under reply are herewith returned.

Statement containing a list of Talapariges in the Maddagiri Taluk which are reported to have been out of action for the past five or even twenty years.

No. R. 7777-88—L. S. 36-14-4, dated 9th February 1916.

Letter No. 538, dated 31st May 1915, from the Superintendent of Mysore, Revenue Survey, to the Revenue Commissioner in Mysore.

I have the honor to forward herewith copy of letter No. 2193, dated 24th May 1915, received from the Deputy Commissioner, Tumkur District, and its enclosure, with reference to the proposals I have made for the revision of settlement of the Maddagiri Taluk, and request you will be good enough to forward a copy of your own remarks on the subject so that I may be in a position to place all connected papers before Government and ask them for final orders.

I am in some doubt as to whether it would be too early to take this opportunity to discuss these views, but I think there is no harm in doing so. On the other hand, remarks such as I may now make may help to dispel doubts you may yourself entertain on the points mooted by the Deputy Commissioner. I shall therefore very briefly explain what I think has been misapprehended by him.

The Deputy Commissioner's point is that where the old water-supply, whether from tank, river, or talaparige, has deteriorated or is permanently cut off, the assessment should be tempered to correspond to such circumstance. Nobody will of course contest that principle; indeed, our revision classification is really intended to help us in effecting such a readjustment. The Deputy Commissioner fears that such a re-valuation may not have taken place. But my report is clear on the point. In the last sentence of the para on "Tanks" Section 5, I have said "The extension of irrigation under the nirsardi system, the alterations made in feeder channels and kodi levels, silting up, and deterioration due to other natural causes, and on the other side, the improvements effected by repairs and extensions, have combined to render an up-to-date valuation of the water-supply necessary, and this has been carefully effected at re-classification." These remarks of course apply to all kinds of water-supply. It is the assumption of an incorrect datum therefore that has led the Deputy Commissioner to utter his warning.

I am at the same time very thankful to him for sending me a sufficiently definite statement showing where talapariges may be said to have become precarious or entirely lost. This information will go a long way to make the settlement as satisfactory as it should be. Most of the talapariges in the list appear to have failed within the past five years, and as this state of things is of comparatively recent origin and may not have entered into the classers' calculations I shall make it a point to ascertain material circumstances about these at settlement, and to work out the assessment for the lands under them anew, should that course be called for.

The Sub-Division Officer in charge of Maddagiri draws attention to difficulties of irrigation from the river channels and says the old water-supply may be considered to be undiminished if, as he says he hears, Government has passed orders in regard to the sluice of the Rampur Ane. Information of a more definite and detailed character will be required before I can judge of the suitability of the classers estimates of the lands concerned. I shall of course look to this also at settlement, if not before that time. Where the Sub-Division Officer himself is in doubt as to important circumstances affecting the water-supply, it would be idle to attempt to hold the classers responsible for a misjudgment arising from an unsettled state of affairs in the locality.

One other point has to be dealt with,—the Deputy Commissioner's assertion that instances have come to his notice, of lands under talapariges in Pavagada Taluk having been continued to be assessed as wet though these had failed for many years. Without more data it is impossible for me either to accept or to refute the proposition, but I may state it for a fact that in the case of Pavagada the lands dependent purely on wells happen to have been treated at revision, with extraordinary leniency shown on account of the character of rainfall there. While the talaparige irrigated lands were themselves assessed most moderately, the purley well irrigated lands were assessed at practically the very low khushki rates prevailing in Pavagada. The disparity between the two rates thus became a little too excessive, and the raiyats got so enamoured of the well rates that those who at Revision Classification stoutly refused to have the immemorial talapariges cancelled from their lands became clamourous after settlement for such cancellation, in the hopes that their lands would be re-assessed at the very favourable well rates. The fault lay in the under assessing of the well lands, not in any heavy assessment of talaparige lands. But the raiyats perverse representation is that the latter were over assessed. I feel practically certain that if only the reduction of the old assessment on well lands had been a little more moderate than it was, and not such as to produce any very striking disparity in the relative values of the two classes of land, no complaint whatever would have been made about either class of land. I may add that both the classing and the settlement operations of the Pavagada Taluk were conducted by an officer distinguished for accuracy and soundness of judgment among other qualities, Mr. K. Ramaswamy Iyengar, that he could have suffered talapariges generally to be brought on our records, which ought to have been regarded as extinct at the time of classification, is by no means easy of belief.

No. Fl. 3855-60—G. F. 77-15-1, dated 15th February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. Fl. 3855-60—G. F. 77-15-1, dated 15th February 1916.

At present, information regarding the financial results of the productive capital works undertaken by Government is not available in an easily accessible form. As such information is necessary for a proper appreciation of the financial policy of Government, an abstract statement is appended to this order containing the figures relating to such works for 1913-14 and 1914-15 (revised).

2. A statement of this kind will be issued as Part III of the Financial Statement in future years.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 4571-1147, dated the 15th December 1914, from the Comptroller to Government, enquiring if water-women employed in Local Fund Dispensaries on a pay of Rs. 4 per mensem may be regarded as 'whole-time' servants and granted grain compensation allowance, and suggesting the issue of definite rules as in the Madras Treasury Manual, para 95, defining the classes of menials who should be regarded as not serving whole-time and consequently not entitled to grain compensation allowance.

2. Letters from the Heads of Departments and Deputy Commissioners on the subject.

Order No. Fl. 4115-64—G. F. 129-14-44, dated 26th February 1916.

The Heads of Departments and Deputy Commissioners, whose opinion was invited on the suggestion of the Comptroller, have given widely differing opinions and are generally against regarding as part-time servants of Government any inferior servants other than sweepers and totis. Government consider it necessary to have a definite ruling in the matter and are pleased to lay down that a post should be regarded as whole-time for purposes of grain compensation allowance if all the three conditions noted below are satisfied:—

(1) It should be included in a permanent or temporary scale of establishment sanctioned by competent authority.

(2) The pay should be drawn on establishment and not in contingent bills.

(3) The pay should not be less than Rs. 4 per mensem.

In the particular case of water-women of Local Fund Dispensaries referred to by the Comptroller, grain compensation up to the limit of Rs. 2 per mensem (disallowing in excess) in each case may as a special case be admitted by the Comptroller, for a period not exceeding that for which such allowance was sanctioned by Government to other establishment, during the last occasion.

No. J. 3295—Cts. 107-15-3, dated 14th February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 1791-138, dated the 17th October 1915, from the Registrar of the Chief Court of Mysore, forwarding the Report on the Administration of Civil Justice in Mysore during the year 1914-15.

Order No. J. 3295—Cts. 107-15-3, dated 14th February 1916.

During the year under report a temporary Additional Munsiff's Court was established at Tumkur to reduce the arrears in the Court at that place, and 18 Village Courts were established in the several taluks of the Tumkur District.

2. The total number of suits instituted during the year was 25,658 against 26,089 in the previous year and the total number disposed of was 26,098 against 25,791 in the previous year. One suit was filed for every 226 persons of the population in the State; in the Madras Presidency the ratio is 1 for every 85 persons of the population. Plaintiffs were successful in 67·1 per cent of the contested suits and unsuccessful in 32·9 per cent.

3. More contested ordinary suits were disposed of during the year than in the four previous years. The average number of contested suits disposed of by a Munsiff in the year was 310 against 304 in the previous year; that by a Sub-Judge and a District Judge 190·66 and 6·66, respectively, against 176·66 and 4·33 in the previous year.

4. The average duration of ordinary contested civil suits, *viz.*, 354·19 days, and of the contested small causes, *viz.*, 168·99 is very high, and Government hope that the Chief Court will impress on the Judges of the subordinate Courts the necessity for prompt disposal of the suits coming before them. In calculating the average duration of suits, cases of abnormal duration are separately shown from those of normal period of pendency. But it is observed that the significance of this distinction disappears when the cases of longer duration bear more than a small proportion to those regarded as normal. In future reports, the average duration of the total number of cases disposed of should also be mentioned.

5. The Chief Court held 46 sittings more than in the previous year and Government are glad to observe that the Judges have disposed of nearly 66 per cent first appeals more than in the previous year, thereby considerably reducing the number of pending appeals and their average duration.

6. Government are pleased to note that the Chief Judge inspected all but four Courts in the State. The District Judges of Bangalore and Mysore, however, did not do a fair share of inspection. This inequality may perhaps be corrected by the framing of a programme every year apportioning the work between the Judges of the Chief Court and the District Courts.

D. M. NARASINGA RAO,
Secy. to Govt., Gen. Dept.

To—The Registrar, Chief Court of Mysore.

No. J. 3536-44—Cts. 108-15-3, dated 29th February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 1805—140, dated 11th October 1915, from the Registrar, Chief Court, forwarding the Report on the Administration of Criminal Justice for the year 1914-15.

Order No. J. 3536-44—Cts. 108-15-3, dated 29th February 1916.

Crime.—The total number of offences reported to the Magistrates and returned as true increased from 20,084 and 16,402 in 1913-14 to 21,691 and 17,776, respectively, in the year under review. The increase is chiefly noticeable in the number of offences under Special and Local Laws, the figures being 5,115 and 4,221 as against 4,198 and 3,646, respectively, in the previous year. The number of persons brought to trial during the year was 34,394 as against 31,012 in the previous year.

2. *The result of cases.*—The percentage of convictions still continues low. It is a matter for regret that the subordinate Magistrates did not furnish separate figures showing the number acquitted under Section 345 of the Code of Criminal Procedure.

Thirteen persons were dealt with under Section 250 of the Code of Criminal Procedure as against 26 in 1913-14 and 30 in 1912-13.

3. *Witnesses.*—The number of witnesses detained for more than three days increased from 271 in 1913-14 to 926 in the year under review. The Courts in the Kadur and Hassan Districts were mainly responsible for this increase and the attention of the District Magistrates concerned, who, it is reported, have assigned no reason for this circumstance, is drawn to the observation contained in paragraph 3 of the order on the report for 1913-14.

4. *Magisterial work.*—The District Magistrates tried a larger number of cases during the year, which, however, falls short of that reported for the year 1912-13.

There was an increase in the number of first offenders dealt with under Section 562 of the Code of Criminal Procedure, the number being 32 as against 10 in the previous year. As observed by the Chief Court, there is scope for a more extended use of the provisions of this section.

It is gratifying to record that the Honorary Magistrates in Bangalore and Mysore Cities continued to render assistance in the administration of Criminal Justice, the number of cases disposed of by them being 1,140 as against 1,006 in the previous year.

5. *Inspections.*—The District Magistrate of Shimoga inspected all the Courts in the district, while the other District Magistrates, except those of Tumkur and Kadur, inspected most of the Courts. The Sessions Judges of Bangalore and Mysore did no inspection work during the year and no explanation is given for the omission of this important duty. Government are glad to note that the Chief Judge was able to inspect several subordinate Courts.

Revision of the Establishment of the Office of the Inspector-General of Police in Mysore.

No. J. 3049-50—Police 255-12-10, dated 5th February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 747—B & R 109, dated the 1st August 1913, from the Comptroller to Government, forwarding, duly verified, the proposition statement* for the revision of the establishment of the office of the Inspector-General of Police in Mysore, received with his letter No C. 123, dated the 24th June 1913, and stating that the proposals involve an extra recurring expenditure of Rs. 8,037 per annum.

2. Correspondence ending with letter No 2410-244, dated the 2nd November 1915, from the Inspector-General of Police in the matter.

Printed as annexures.

Order No. J. 3049-50—Police 255-12-10, dated 5th February 1916.

The establishment of the office of the Inspector-General of Police was last revised in 1893. The Inspector-General represents that the work in his office has, since then, increased enormously and with a view to cope with this increase he proposes to revise his office establishment at an annual extra cost of Rs. 8,037 as shown in the proposition statement. Government consider it sufficient to sanction an extra expenditure of Rs. 2,895 per annum on this account. A statement showing the present and sanctioned scales of establishment is appended hereto. The additional amount required for this purpose during the current year will be met from savings under "17 D-(4) District Executive Force."

D. M. NARASINGA RAO,
Secy. to Govt., Gen. Dept.

To—The Inspector-General of Police in Mysore.
The Comptroller, Mysore Government, through Branch II.

Exd.—C. R.

No. J. 3049-50—Police 255-12-10, dated 5th February 1916.

Annexures.

No. C. 123, dated 20—24th June 1913, from C. Srikantesvara Aiyar, Esq., B.A., B.L., Inspector-General of Police in Mysore, to K. R. Srinivasiengar, Esq., M.A., Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honour to submit herewith proposals for the increase of my office establishment, the inadequacy of which has already been represented by my predecessors from time to time since the early nineties.

2. The office of the Deputy Inspector-General of Police was formed in the year 1876, with an establishment of one manager, seven clerks and eight menials at a cost of Rs. 434 per mensem. This was subsequently revised in the year 1893, when three more clerks were sanctioned to the then existing establishment and a small increase was given to the officials, the whole establishment costing Rs. 572½ per mensem. Since then no improvement has been effected, save that in 1896 the appointment of a carpenter maistry on Rs. 15 per month attached to the Provincial Special Reserve Force was abolished and a clerk on the same pay added on to the office establishment, so that it has continued to be the same for over two decades.

3. The following statement shows vividly how enormously and out of all proportions the volume of work has increased, more than doubling itself since the year 1876.

Years	Correspondence		Strength of the Police Force
	Received	Despatched	
1876-77	4,324	2,500	4,226
1892-93	6,436	4,598	5,283
1895-96	5,812	4,003	5,419
1911-12	9,704	6,732	5,887

4. Further, with the establishment of the Provincial Special Reserve Force, the Headquarter Police Training School, the Finger Print Bureau and the Criminal Investigation Department, and the introduction of numerous new Regulations—the Arms Regulation, the Infant Marriages Prevention Regulation, the Coffee Stealing Prevention Regulation, the Mysore Mines Regulation, the Newspapers Regulation, etc, the operations whereof have to be scrutinized and reports thereon submitted annually—the work in the office especially in the correspondence and account branches has immensely increased; such increase is not merely in volume, but the quality of the work demanded is also very much higher

5. The establishment had become so utterly weak to cope with the requirements of the times that my predecessors had nearly matured a revision which had almost been completed during the time of the late Mr. D. Devaraj Urs, who, before it could be submitted to Government, was elevated to the Councillorship, when he left the following note on record.—"It is high time that the office establishment is revised. I am sorry I was not able to send up any recommendation. I hope my successor will do the needful" And with my experience of sixteen months, I find that it is absolutely impossible to cope with the work, as it comes, not to say anything about the quality thereof. Most of the officials have to work under very great strain, often late at nights and from early morning with the inevitable result that efficiency of the office has been considerably impaired.

6. Added to all this, the recent developments and political situation in India has augmented the work in the Criminal Investigation Department and the Finger Print Bureau very much, and consequently correspondence in the office has also increased simultaneously.

7. Likewise, the work of the Finger Print Bureau too has outgrown its inception, and it is now found impracticable to carry it on satisfactorily with the present inadequate staff of one clerk and an Inspector, with numerous and urgent calls both from outside and from within the State, and requisitions for giving expert evidence. The statement* hereto appended furnishes much interesting details of this Bureau, compared to the work in the other Provinces of India.

8. Considering all these circumstances and the increasing tendency for growth of work on all sides, it is not possible to carry on the work of the office with any degree of satisfaction without some relief to the long-neglected establishment I therefore submit herewith a statement proposing a very modest establishment absolutely indispensible to carry on the work properly, which, I beg to add, will be found to compare very favourably, in regard to the strength as well as to expenditure, with those in the British Provinces, increased cost of these proposals being only Rs. 7,944 per annum, and request that you may be so good as to obtain the sanction of Government thereto at a very early date.

Reconstitution of Municipal Councils.

No. 6170-9-Mi. 220-15-1, dated 23rd February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 5053-60-Mi. 100-13-13, dated 1st November 1913, laying down instructions for the prompt reconstitution of Municipal Councils.

Order No. 6170-9--Mi. 220-15-1, dated 23rd February 1916.

Government observe that, in spite of the clear instructions laid down in the above order, timely action is not being taken under the Municipal Regulation and the rules thereunder, for the publication and revision of the lists of voters and candidates and for holding elections for reconstituting Municipal Councils.

With a view to avoid such omissions and to facilitate prompt action, Government direct that the following procedure prescribed by the Election Rules of 1909 and the Government Order referred to above with the dates on which action has to be taken should be strictly adhered to by the Presidents of the several Regulation Municipal Councils.

Stages of Procedure	*Date for taking action.*
(*a*) Publication of the list of voters	(1) On or before the 1st April every year; (2) at least two months before the date fixed by Government in special cases (*vide* Government Order of 1st November 1913 and clause (*c*) of Rule 8 (1)
(*b*) Application from persons and references from officers for the revision of the list of voters	To be accepted if presented within fourteen days from the date of publication of the list (*vide* clauses i and ii of Rule 9).
(*c*) Communication of the Municipal Councils' decision to the parties.	Soon after the first meeting of the Municipal Council following the date of receipt of the application (*vide* clause iv of Rule 9).
(*d*) Appeals from the decision of the Municipal Council to the Deputy Commissioner	To be accepted if instituted within ten days from the date of communication of the Municipal Council's decision (*vide* clause (v) of Rule 9).
(*e*) Publication of additions to and corrections in the list of voters and candidates.	At least fourteen days before the 1st June every year or the date fixed by Government under Rule 8 of the Election Rules in special cases (clause 1 of Rule 10)
(*f*) Publication of the time and place of election	Not less than fifteen days before the earliest date fixed for election. (Rule 11 of the Election Rules)
(*g*) Papers for nomination of candidates.	To be accepted if delivered at least ten days before the date fixed for election. (Clause i of Rule 13.)
(*h*) Posting up of the list of candidates.	At least five days before the date fixed for election. (Clause ii of Rule 13.)
(*i*) Declaration of results of election.	Soon after the results are ascertained at a special meeting of the Municipal Councillors.
(*j*) Destruction of voting papers.	After the expiry of fifteen days from the date of the declaration of the results (Rule 26, clause i), or after the disposal of applications made by persons regarding the elections. (Clause ii of Rule 26 of the Election Rules.)

Report on the working of the Government Press.

No. G. 11589 G. P. 11-15 3, DATED 16TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Report on the working of the Mysore Government Press, the *Mysore Gazette* Office and the Office of the Registrar of Authorised Publications for the year 1914-15, submitted by the Superintendent of the Mysore Government Press with his letter No. 419, dated 9th August 1915.

Order No. G. 11589—G. P. 11-15-3, dated 16th February 1916.

Mr. Yates has prefaced the report for the year 1914-15 with a brief note on the improvements effected in the Government Press during the past ten years he has held the charge of the institution.

2. The period has been one of steady progress in all directions. The old buildings have been considerably extended and improved, the equipment has been brought up-to-date, hand and steam power have been replaced by electric power and both the quantity and the quality of the work have substantially increased.

3. The following statement shows the increase in work and equipment during the period of ten years:—

Kind of work	1904-05	1914-15	Percentage increase
1. Pages composed	28,859	60,088	108
2. Impressions printed	6,427,053	18,987,585	195
3. Books bound	678,290	1,446,907	113
4. Total expenditure	Rs. 69,713-6-3	Rs. 1,12,096-4-7	60
5. Number of men employed	341	439	28

4. *Additions to the Plant.*—During the year one Double Demy and one Double Crown Wharfdale printing machine with accessories were purchased at a cost of Rs. 7,561-5-0 and added to the stock. Besides, 1,273 pounds of new type costing Rs. 1,572-6-3 were purchased from abroad and 15,736 pounds at a cost of Rs. 6,924-12-0 were cast at the Government Press and taken credit in the books. The cost of repairs to machinery in the Press during the year was Rs. 308-6-1 against Rs. 746-9-8 in the previous year.

5. *Expenditure on printing.*—The total expenditure on the Central Press at Bangalore including book debits, amounted to Rs. 1,46,776-8-9 against Rs. 1,42,443-9-8 during the previous year. The maintenance charges of the Branch Press at Mysore amounted during the year to Rs. 6,540-7-7 against Rs. 6,018-14-1 in 1913-14.

6. The question of regulating printing work done at the Government Press for Government Departments was disposed of by the issue of Government Order No. G. 13906-56—G. P. 24-12-11, dated the 11th June 1915. Definite instructions have been laid down with a view to bring this work under proper control. The question of systematising expenditure on printing is still under the consideration of Government.

7. The two Probationers who had been deputed to England in 1912-13 for studying improved methods in printing and its auxiliary branches, returned towards the close of the year under report, after undergoing a satisfactory course of training there for three years. They have since been appointed Sub-Assistant Superintendents in the Government Press; and it is hoped that this addition to the superior staff will result in still greater efficiency in the working of the Government Press

8. With reference to the Government Branch Press at Mysore, the Superintendent is requested to report separately for the consideration of Government the precise way in which its usefulness can be further enhanced.

9. *Registration of books.*—During the year, 124 books and periodicals were registered, against 117 in the previous year, and copyright was secured in the case of 50 books against 66 in 1913-14, bringing Rs. 160 as fees against Rs. 132 in the previous year.

10. *The Mysore Gazette.*—At the close of the year there were 739 paying subscribers against 831 in the previous year. In addition, 749 English copies and 215 Kannada copies of the Gazette were supplied to Government Officers free. A sum of Rs. 3,214-14-0 was realized on account of subscriptions, advertisement charges and sale of single copies against Rs. 2,838-13-6 in the previous year.

11. Government note that it was not possible to start during the year the school for imparting instruction in printing to workmen in private presses.

12. The Government desire to place on record their appreciation of the Superintendent's efficient management of the Press during the year and have perused with satisfaction the commendatory remarks of the Superintendent on the work of the staff of the Press.

Economy in the use of Articles of Stationery.

No. G. 11372-422
G. P. 24-15-52

GENERAL AND REVENUE SECRETARIAT,
Dated Bangalore, 14th February 1916.

CIRCULAR.

The attention of all officers of all Departments is invited to Government Circular No. G. 1803-52, dated 19th August 1914, enjoining the greatest economy in the use of articles of stationery in all offices.

2. The need for such economy is daily increasing and Government hope that Heads of Offices will give their personal attention to the subject.

3. Great discrimination should be exercised in the use of different qualities of paper by the various classes of officers and officials and in the selection of paper for writing according to the importance of the subject matter.

By Order,

D. M. NARASINGA RAO,
Secy. to Govt., Gen. Dept.

To—The Heads of Departments.
The Deputy Commissioners of Districts.
The Superintendent, Government Stationery.

Private Work in the Press.

No. G. 12246-93—G. P. 3-15-13, DATED 28TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Paragraph V of Government Order No. G. 13906-56 - G. P. 24-12-11, dated 11th June 1915, directing that no private work should be undertaken in the Government Press without the special sanction of Government.

2. Letter No. 795, dated 22nd September 1915, from the Superintendent, Government Press, pointing out that the private work undertaken in the Government Press is mostly for high officers of Government and the Palace who desire to have small jobs done for them at the press and also for non-official persons, private firms and presses in sundry matters for which facilities are not available elsewhere, and requesting that he may be permitted to do, at his discretion, for private individuals small jobs of the kind referred to above, costing not more than Rs. 50, and to submit to Government monthly reports of such work undertaken in the Press.

Order No. G. 12246-93—G. P. 3-15-13, dated 28th February 1916.

The Superintendent, Government Press, is authorised to take up private work of the kind referred to above costing not more than Rs. 50 on conditions that it is of a kind not done elsewhere in Bangalore and that the execution of such work will not delay or hinder Government work.

2. A monthly statement showing the quantity of work done and the cost recovered and credited to the Treasury under the above head should be submitted to Government for information.

V. R. THYAGARAJA IYER,
Secy. to Govt., Rev. Dept.,
in charge, Gen. Dept.

To—The Superintendent, Government Press.

Revision of the Mysore Gazetteer.

No. G. 10888-938 -G. M. 304-15-12, DATED 3RD FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. G. 37, dated 2nd November 1915, from the Officer in charge of Archæological Researches in Mysore, stating that many of the officers have not responded to his call for information in connection with the revision of the Mysore Gazetteer and there has been a general lack of co-operation on the part of Heads of Departments and Deputy Commissioners with him in the matter of the work entrusted to him which considerably retards the progress of the work.

Order No. G. 10888-938—G. M. 304-15-12, dated 3rd February 1916.

The Government desire to impress upon Heads of Departments and Deputy Commissioners of Districts and other Officers concerned, the necessity for their cordial co-operation with the Officer in charge of the revision of the Mysore Gazetteer, to ensure the work being completed satisfactorily without undue delay.

2. The Officer in charge of the revision of the Gazetteer is also requested to furnish all officers with a note for their guidance indicating the lines on which the revision of the work is meant to be undertaken and the assistance specifically required of them in the matter.

3. All requisitions from the Special Officer should be promptly complied with.

D. J. NARASINGA RAO,

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 884, dated 29th December 1915, from the Superintendent, Government Stationery, bringing to notice the difficulty in identifying indents for stationery and forms meant for several offices owing to information not being furnished in the indents regarding names of departments and offices for which they are meant, and requesting issue of necessary instructions in the matter.

Order No. G. 10941-90—G. M. 350-15-2, dated 3rd February 1916.

The attention of all indenting officers is invited to the necessity of filling in the forms of indents in detail so as to enable the Superintendent to check the indents in accordance with sanctioned scales and maintain proper accounts of issue and also to direct the consignments to the proper institutions.

In the case of indents by officers for offices or branches subordinate to them, detailed information should be furnished regarding the particular office or branch for which the indent is meant, the scale of establishment sanctioned for the office and such other details as are prescribed in the Stationery Rules and forms of indent.

Abolition of the Appointment of the Military Secretary to His Highness the Maharaja of Mysore.

No. G. 11428-78—MILY. 179-15-6, DATED 14TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. G. 4351-400 Mily. 9-14-1, dated the 3rd November 1914, placing the administrative control of the following departments under the Military Secretary to His Highness the Maharaja:—

(1) Imperial Service Transport Corps.
(2) Government Stables
(3) Kunigal Stud Farm
(4) Hessarghatta Grass Farm
(5) Government Houses and Entertainments.
(6) Amrut Mahal Department.

2. Notification No. G. 10569- Mily. 179-15-1, dated 26th January 1916, placing the Chief Commandant in charge of the current duties of the Office of the Military Secretary to His Highness the Maharaja, as a temporary measure.

Order No. G. 11428-78—Mily. 179-15-6, dated 14th February 1916.

In modification of the arrangements sanctioned in the Notification read above, Government are pleased to direct that pending further orders the separate appointment of the Military Secretary to His Highness the Maharaja be abolished, the administrative control of the departments under his charge being vested in the Chief Commandant, Mysore State Troops.

2. The Chief Commandant, Mysore State Troops, will, in the discharge of the above duties, exercise the powers conferred on the Military Secretary to His Highness the Maharaja in that behalf in Government Order No. G. 4351-400—Mily. 9-14-1, dated 3rd November 1914.

3. Mr. C. Venkata Rao, B.A., Office Assistant to the Military Secretary to His Highness the Maharaja, will continue to work as Assistant to the Chief Commandant, Mysore State Troops, in the departments now transferred to his control.

Report on the Audit of the Accounts of the Military Stores.

No. G. 11527-8—Mily. 215-14-8, dated 14th February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. Fl 966-8—G F 29-14-1, dated the 27th August 1914 directing an audit of the accounts of the Military Stores from January 1909 to the end of June 1914.

2. Correspondence ending with letter No. 2892—L. A. D. 350, dated 11th October 1915, from the Comptroller to Government, forwarding the report on the audit of the [illegible] accounts together with the explanation of the Superintendent, Military Stores, at the time, *viz.* Mr. A. Rama Rao, and of his successor Mr. C. M. Raghavendra Rao with regard to the several points alluded to in the report.

3. Correspondence ending with letter No. 3871, dated the 19th October 1915, from the Chief Commandant, Mysore State Troops, stating that from the statement showing the differences between the book balances and the actual quantities of articles handed over on the 9th December 1914, to Mr. C. M. Raghavendra Rao, by Mr. A. Rama Rao, it is observed that out of a total of 465 items there is an excess stock in 88 instances and a deficiency in 23, and that in regard to the latter he has in anticipation of the approval of Government permitted Mr. A. Rama Rao to make good the 50 pairs of boots found short of the book balance and recommending that the remaining minor items may be written off the accounts.

Order No. G. 11527-8—Mily. 215-14-8, dated 14th February 1916.

The Audit Report discloses the following irregularities :—

(1) The unsatisfactory state of the accounts maintained in the Store

(2) The omission to take into account regularly the surpluses found in the measurements and in cutting woollens and cloth.

(3) The failure to verify periodically the stock with the book balance.

(4) The purchase of articles without calling for tenders or adopting any other well regulated arrangement calculated to economise expenditure.

(5) The issue of articles to officials and others on payment or otherwise without orders.

(6) Failure to maintain a separate stock account of the large quantities of articles purchased for Store Contingencies.

(7) Large differences in stock, *viz.*, surplus in certain cases and shortage in certain others, the value of the latter amounting to a large sum.

2. These irregularities are of a serious character and it is a matter for regret that they have been allowed to continue unchecked for so long in spite of the obvious need for the exercise of great care, control and scrutiny where the purchase, custody and disposal of large stores involving heavy expenditure are concerned.

3. As regards the deficiencies referred to in paragraph 10 of the Audit Report, Government observe that the explanation of Mr. A. Rama Rao that most of the items have been since traced and handed over to his successor is very unsatisfactory. If they really existed in the Stores, it should not have been difficult to find and produce them for inspection at the time of the verification of stock by the Assistant Comptroller and the Efficiency Audit Officer. Accepting, however, as correct the stock list prepared by him and Mr. C. M. Raghavendra Rao, on the 9th December 1914, which discloses additional items of deficiency while accounting for some of the items of shortage referred to in the Audit Report, Government observe that articles of the value of Rs. 678-13-9, as shown in the appendix to this order have not been accounted for by Mr. A. Rama Rao and they direct that this

amount should be recovered from him and credited to Government. The replacement of the articles themselves is open to objection and cannot be accepted. The surplus which is a result of the indifferent manner in which the accounts were maintained should be brought on the stock account at once and the marginally noted items adjusted by submission of bills or otherwise as promised by the present Superintendent.

	Rs.	a.	p.
(1) The sum recoverable from parties as per para 11 of the Audit Report ...	4	7	6
(2) The value of 4 yards and 9 inches of white woollen cloth at Rs. 6 a yard *vide* page 4 of charge list .	25	8	0
(3) The value of 12 yards 3 inches of bleached drill at 6 annas *vide* page 5 of charge list ..	15	12	6

4. Government consider that in addition to the half-yearly stock-taking by the Superintendent himself prescribed in Government Order No. G. 1107-8—Mily. 52-12-9, dated the 23rd July 1915, an independent verification of stock at least once a year is absolutely necessary and they accordingly direct that the Chief Commandant should, in future, have the stock verified by his Personal Assistant soon after the close of each official year and report the result to Government not later than the 31st July of each year.

5. As for the purchase of articles, Government direct that generally the quantity of all articles required for the Military Stores should be estimated annually and supply obtained after calling for tenders in accordance with Government Order No. Fl. 770-809—G. F. 214-10-88, dated the 23rd December 1913, and the [illegible] with the approval of Government on the quotations of the [illegible] the same procedure should be followed in regard to the Tailor hire [illegible]

6. In regard to the other matters relating to the proper maintenance of accounts in the Military Stores the draft of a set of account rules which the Comptroller has promised to furnish is awaited.

7. To mark their displeasure of the unsatisfactory manner in which the late Superintendent Mr A. Rama Rao maintained the accounts, Government direct that a deduction be made of Rs. 5 per mensem from the pension which he may be entitled to under the rules.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 735-7—P. W. 4837-9, dated the 12th June 1913, sanctioning among other things, the provision of stabling accommodation in the Cubbon Park compound for horses, carriages and motors of officers employed in public offices and non-official gentlemen who may have to attend the public offices daily on business.

Order No. G. 11836-84--G. M. 422-15-1, dated 24th February 1916.

The building as now constructed consists of 30 stalls for horses, 36 carriage sheds, and 6 motor sheds.

2. Government direct that a fee of Re. 1 for each horse stall or carriage shed and Rs. 3 for each motor shed be levied for each calendar month of its occupation or part thereof.

3. Applications for the use of the stalls should be made to the Registrar, General and Revenue Secretariat. On hearing from that officer that the required accommodation is available, applicants should credit the amount of fee fixed above in the District Treasury, Bangalore, and forward the receipt to the said officer who will, under the orders of the Secretary to Government, General Department, issue permits for occupation. The same procedure should be repeated in the case of further renewals, the fees being payable in advance within the 5th of the month to which they relate.

4. The Overseer of the Cubbon Park will be in charge of the building under the immediate orders of the Registrar, General and Revenue Secretariat, and be responsible for keeping the premises in a clean and sanitary condition.

5. The appointment of a watchman on Rs. 8 per mensem for the building is sanctioned.

Report on the Working of the Government Stationery Depot.

No. G. 11657—G. M. 172-15-3, DATED 19TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Report on the working of the Government Stationery Depot during the year 1914-15, received with letter No. 287, dated 14th August 1915, from the Superintendent, Government Stationery.

Order No. G. 11657—G. M. 172-15-3, dated 19th February 1916.

The value of stationery on hand at the beginning of the year under review was Rs. 48,479-11-8, to which was added fresh stock valued at Rs. 1,41,186-15-7, making a total of Rs. 1,89,666-11-3 for the year against Rs. 1,81,657-0-8 in the previous year. The various offices in the State were supplied with stationery articles and paper of the value of Rs. 1,30,036-15-10 as against Rs. 1,33,177-5-0 in the preceding year. The balance of stationery in the Depot at the close of the year was of the value of Rs. 59,629-11-5 against Rs. 48,479-11-8 in 1913-14.

2. The extended operations of the existing departments and the creation of new ones in connection with the various development schemes sanctioned by Government necessitated and an additional grant of Rs. 20,000 to the year's provision on account of stationery supplies.

3. The scale of pay and strength of the establishment of the Government Stationery Depot was revised during the year under review in consideration of the heavy work which has devolved upon the Department in recent years.

4. It is noted that the requirements of the value of local and Indian articles purchased was Rs. 27,816 as against Rs. 16,792 in the previous year.

5. It is gratifying to observe that the working of the Department has on the whole been satisfactory.

Report on the Working of the Government Gardens.

No. G. 11665-6—G. M. 266-15-4, DATED 19TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The report on the working of the Government Gardens and Parks during the year 1914-15, submitted by the Superintendent with his letter No. 425, dated 7th October 1915.

Order No. G. 11665-6—G. M. 266-15-4, dated 19th February 1916.

Recorded with the observation that the report is interesting but admits of considerable curtailment.

2. *The Lal-Bagh.*—Government are glad to note that the Lal-Bagh continued to increase in popularity as a centre of recreation, and an institution of scientific and technical interest as testified to by the good use made by the public of the Bureau of Economic Botany and the increasing number of indents for seeds and plants received from raiyats and others.

A sum of Rs. 50,000 has been sanctioned for special improvements of the Lal-Bagh to be spread over three years commencing with the year under review. Good progress was made in all the works undertaken this year.

3. *Other gardens and parks.*—The Cubbon Park and the Sunkal Tank Experimental Farm in Bangalore, and the other Government Gardens at Mysore and Seringapatam were all maintained in a satisfactory condition.

4. *Hill stations.*—In addition to its work proper connected with the up-keep and improvement of the various gardens in its charge, the Department has been entrusted with the development and supervision of the Hill Stations of the State. The first station to be taken up was the Nandi Hill, which was opened on the 1st April 1915. Though the season lasted only for a very short time it is reported that there were 240 visitors who stayed for periods ranging from one to fifteen days. Government note with satisfaction the response the scheme has met with from the public.

5. It is reported that the survey of the extent and condition of fruit cultivation in the State was completed during the year and that the Economic Conference has the report under consideration.

Government Order No. 2097-145—G. M. 55-12-239, dated the 2nd September 1913, publishing rules for the grant of loans to facilitate agricultural and industrial operations and for the purchase and erection of machinery.

2. Letter No. 2268, dated the 23rd December 1915, from the Director of Industries and Commerce, reporting that the present system of recovering loans granted for the purchase of agricultural machinery by payment of ¼th of the amount at once, and of the balance by six half-yearly instalments, is causing hardship to the raiyats as their crop comes in only once a year, and recommending therefore that he may be empowered to modify the terms of the existing and future hire purchase agreements for such machinery, so as to provide for three annual instalments instead of six half-yearly ones, without however extending the period fixed for the full repayment of the loan.

Order No. 4182-230—A. & I. 56-15-55, dated 24th February 1916.

The Director's proposals are sanctioned. He is requested to submit for the approval of Government a draft revised form of the hire purchase agreement after making the necessary alterations in regard to agricultural and industrial machinery.

2. The application of Mr. Veerlagondi Narasimiah referred to in the letter read above may be dealt with in accordance with this order.

3. As regards the modification of the terms in other cases already sanctioned, a special report may be made for the orders of Government regarding each case.

INSPECTION REPORT OF

Educational Offices

Name of Office.....

Date of present inspection .....

Date of last inspection.....

Name and designation of the Inspecting Officer at the last and present inspections.....

Question	Answers including suggestions for remedying the defects, if any
I. General.	
1. Is the office accommodation sufficient and suitable? Are the rooms and premises kept clean?	
2. Are the prescribed working hours strictly observed?	
3. Is there proper distribution of work among the clerical staff?	
4. Are papers pending with each member of the office staff inspected once a month by the Head of the office?	
5. Is there any tendency to allow work to fall into arrears?	
6. Is a calendar prepared up-to-date and hung up in the office showing the reports and returns due from subordinate offices with dates before which they are due?	
7. Does each section or clerk maintain an up-to-date file of the Orders of Government and Circulars of the Department bearing on the section or his work? (This is applicable to Head Office).	
8. Are the entries in the Service Registers of the staff correctly posted up-to-date?	
9. Are the instructions conveyed in Government Orders Nos. 3663-702—P. & A., dated the 11th September 1902 and Fl. 7964-8003—S. & A. 662-04-6, dated 22nd May 1905, regarding the preparation and submission of the pension applications of the retired servants within three months from the date of the order of retirement, duly attended to? Note any instance of abnormal delay in the submission of such applications.	
II. Correspondence Registers.	
10. Are the prescribed registers properly maintained?	
11. Are cross references noted in the "From" and "To" registers to enable the clerk to say at once the stage at which any particular correspondence stands?	
III. Cash and Contingencies.	
12. (1) Are the following registers maintained:— (*a*) Cash book.	

No. 49-4—E. A. G., DATED 15TH FEBRUARY 1916.

Question	Answers including suggestions for remedying the defects, if any
(*b*) General Ledger or classified abstract of the monthly totals of the cash book. (*c*) Contingent register. (*d*) Order book for contingent charges. (*e*) Register of furniture and tents. (2) Are salary bills prepared with reference to the Attendance Register, Leave Register and Office Order Book? (3) Is the Acquittance Roll maintained at the office checked and initialled by the Head of the office once a month? (4) Is there any irregularity in the cash transactions of the office or institution?	
IV. Prize books.	
13. Is an account of the prize-books maintained?	
14. Are the prize books regularly distributed to the prize winners?	
V. The Library.	
15. (1) Whether a complete catalogue of books in the Library is maintained with accession lists? (2) Are the books in good condition? (3) Are lost or damaged books replaced? If the damage is due to wear and tear, what action has been taken to set it right?	
VI. Records.	
16. (*a*) Is the system of arranging the records of the office satisfactory? (*b*) Are all unnecessary records destroyed in time? (*c*) Whether racks and compartments have been numbered? (*d*) Are the following kept in separate files? (1) Standing Orders of Government. (2) Standing Orders issued by the Department.	
17. Any general remarks regarding any other matter worthy of note.	
18. Are the remarks of the Inspecting Officer recorded in an Inspection Book on half margin the other half of the page being used for noting the measures taken for rectifying the defects?	

No. 44—E. A. G., DATED 22ND FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

No. 44—E. A. G., DATED 22ND FEBRUARY 1916.

MEMO OF GENERAL QUESTIONS FOR THE INSPECTION OF SURVEY AND SETTLEMENT OFFICES.

1. Name of inspecting officer with designation.

2. Duration of inspection ... ... { Date commenced. / Date concluded.

3. Previous inspection ... ... { Date. / Name of inspecting officer.

I GENERAL.

1. Is the office accommodation sufficient and suitable? Are the rooms and premises kept clean?

2. Is an attendance register in use? Is the attendance regular? Who checks the register daily?

3. How many clerks are working in each branch of the office and what is the qualification of each?

Service Registers, Lists of Establishments, etc.

4. Is an up-to-date list of the establishment both clerical and menial maintained?

5. Is a record of the qualifications and services of the ministerial officers maintained up-to-date?

6. Is a service register maintained for every permanent official and brought up-to-date? Are these registers arranged in order and kept in the records in a separate box? Who keeps the key of the box?

7. Is an office order book maintained? Are orders of leave, punishment, etc., regularly recorded and given effect to?

8. Is a register of applications for appointments maintained and are selections made therefrom?

9. Are all appointments made in accordance with rules pertaining to the Department?

Distribution of Work.

10. Is a record of the distribution of work among the several clerks in each branch maintained? Is the work assigned to each official sufficient without being excessive?

11. Does each official maintain a diary and do the entries show sufficient work for each day? What is the general condition of the work indicated by these records? Is it up-to-date and efficient?

Arrear Lists.

12. Does every official in each Branch prepare and submit once a month a list of references pending with him as required by Rule 14 of the General Rules of Office Procedure? Are these lists consolidated by the Head of the Branch and is a statement submitted by the 5th of the month following?

13. Are these lists scrutinised carefully by the ministerial head of the office and reminders sent promptly where necessary?

Are similar monthly statements called for from subordinate offices if any and scrutinised before the 15th of the month following?

A copy of the latest arrear list may be appended.

Reports and Returns.

14. Is a statement of the periodical reports and returns due from each branch prepared and maintained up-to-date? Are the due dates, the dates of actual submission and the names of the clerks responsible for their preparation noted therein? Is it scrutinised monthly by the head of the office? *Vide* Rule 6 of the Efficiency Rules.

How many and which returns were overdue at the time of inspection.

15. Are all disposed of records promptly made over to the Record-keeper duly arranged and stitched? What is the number of such records remaining to be sent to the record room?

Furniture List.

16. Is a register of furniture maintained? Are all articles of furniture entered therein together with details as to the cost and date of purchase of each? Is the register verified once every quarter and the result reported to the head of the office? Is a note made in the register of all articles lost or which have become unserviceable? Is a similar list maintained for tents?

Is the furniture adequate to the needs of the office or more than necessary? What is the condition of furniture kept?

Stationery and Forms.

17. In whose custody is the office stationery? Are the stock and issue registers regularly maintained? Are they submitted monthly for the inspection of the officer in charge? Is a verification by stock-taking done once a year?

Is a general indent book maintained for monthly issue of stationery?

Are old and unserviceable articles sold by public auction and the proceeds credited to Government? (*Vide* Rule 19 of the Stationery Rules.)

18. Who keeps the stock of forms? Where are they kept? Are they neatly arranged? Are all receipts and issues noted in a register?

19. Is a register of periodical issue of stationery maintained? (*Vide* Rule 36 of the Stationery Rules.)

File of Standing Orders.

20. Is a complete set of the standing orders of Government relating to the work of each branch of the office maintained? Are circular instructions received from superior authorities maintained in the several departments in separate files? Are these files complete and up-to-date?

Is each provided with a table of contents and if bulky, also an index?

21. Is a similar file maintained of circulars issued from the office?

Library.

22. In whose charge is the office Library and where is it kept?

23. Is a register maintained for entering books and publications as they are received and is it written up-to-date?

24. Is a catalogue of the office Library maintained up-to-date?

25. Are all books received into the Library correctly labelled and deposited in their appropriate places?

26. Are all correction slips inserted in their proper places in the volumes of enactments, rules, etc.?

27. Are any books issued without a receipt or lent to strangers without the permission of the head of the office?

28. Is a monthly report of books removed and not returned submitted?

29. Are cases of loss of or damage to any books reported promptly and orders obtained for their replacement?

Tour.

30 Is a definite programme drawn up and adhered to?

II. Correspondence Registers.

31. Are the registers of inward and outward correspondence properly maintained with cross references regularly marked?

32. How many of such registers are maintained? Are a peon book and tappal book maintained?

33. Are the registers written up neatly? Are the entries concise and clear?

34. Are all receipts classified in the manner laid down in Rule 11 of the General Rules of Office Procedure?

35. Is there any delay in the fair copying and despatching of letters? Are all papers despatched invariably on the day they are signed or the following day? A few issues may be examined with reference to the refer book, peon book and tappal book.

36. Is the issue register checked once a month by the ministerial head of the office?

37. Is an Amad Register maintained to enter all covers as they are received in the Branch?

38. Is a separate petition register maintained in the form prescribed by Rule 22 of the Petition Rules and does it show the method of disposal and the date and nature of endorsements granted?

39. Is there any abnormal delay in the disposal of petitions?

40. Is the half-yearly return of petitions sent up regularly as required by Rule 24 of the Petition Rules?

41. Are all the registers periodically examined by the head of the branch and the ministerial head of the office and signed by them in token of their inspection?

III. CASH AND CONTINGENCIES.

42. Are the following registers prescribed by Rule 25 of the General Rules of Office Procedure maintained?

(1) Cash Book.

(2) General ledger or classified abstract of the monthly totals of the Cash Book?

(3) Contingent Register.

(4) Order book for contingent charges.

43. What is the amount of permanent advance held by the office? Is an account of it correctly kept? What is the balance on hand? Is it forthcoming?

44. Is there any money on hand awaiting remittance to the Treasury or payment to parties? *Details may be furnished.*

45. Are there any long standing advances made out of the office imprest, awaiting adjustment? Details may be furnished.

46. Are all charges incurred on account of contingencies entered in the contingent register from day to day? (*Vide* Article 81 of the Civil Account Code.) Are totals struck at the end of the month?

The necessity for any unusual charges may be scrutinised.

47. Are all contingent charges incurred under due authority, sanction of higher authorities being obtained where necessary?

48. Is the abstract contingent bill drawn at the end of each month in the manner laid down in Article 83 of the Civil Account Code and are the initials of the head of the office obtained?

49. Is the expenditure kept within the budget grant?

50. Are the detailed contingent bills of each month submitted with vouchers regularly the 1st week of the succeeding month as required by para 210 of the Mysore Treasury Manual? Are all disallowances promptly deducted from the succeeding contingent bills?

Is the account of service postage labels correctly written up? Who keeps them and where? Does the stock on hand agree with the book balance?

51. Are salary bills prepared with reference to the attendance register, leave register and office order book? Are drafts of the pay bills maintained?

52. Is an acquittance roll maintained? Are all salaries drawn duly disbursed and proper receipts taken therein? Is a stamped receipt obtained for payments of over Rs. 20? Is the register examined every month by the head of the office?

53. Are the bills and payments posted in the cash book?

54. Is undisbursed pay shortdrawn invariably in the pay bill of the next month?

55. Is necessary sanction obtained for drawing the pay or allowances of incumbents of appointments requiring sanction of the higher authorities?

56. Are all sums drawn on travelling allowance bills disbursed and acquittance taken?

No. 44—E. A. G., DATED 22ND FEBRUARY 1916.

57. Are drafts of the office travelling allowance bills maintained in a register? Is there any undisbursed travelling allowance left on hand? Are the rules regarding undisbursed travelling allowance laid down in Government Order No. Fl. 2187-235—S. & A. 63-15-4, dated 19th November 1915, duly observed? Have personal claims of officers to pay, allowances and increments been discharged without delay? If any are delayed, what is the cause for the same?

58. Are pension applications prepared and submitted in time as required by Government Order No. Fl. 7215-55—S. & A. 484-08-1, dated 7th May 1909?

59. How many cases are pending and why? The last pension quarterly may be reviewed.

IV. RECORDS.

60. The rules, if any, under which the records are arranged may be quoted. If no such rules exist, the system of arrangement followed subjectwar or chronological, etc., may be briefly explained.

61. Are all the records sorted according to the prevailing system? If not what is the quantity of papers remaining to be sorted? What time is necessary to complete their sorting?

62. In whose charge are the records kept? Are records permitted to be removed without a substitute slip signed by the requisitioning official?

A list of the records taken out of the record room and outstanding for long periods may be given.

63. Have rules been framed for regulating the periodical destruction of unserviceable records and have all time-expired papers been eliminated according to such rules?

64. Are the money and stamps received for copies regularly entered in a register? Is the register submitted regularly to the head of the office for inspection and signature? Where are all the moneys and stamps received for copies kept?

No. 44—E. A. G., DATED 22ND FEBRUARY 1916.

V. MISCELLANEOUS.

65. Is an inspection minute book maintained and written up as laid down in para 4 of Government Order No. 10870-918—E. A. 43-14-1, dated 10th April 1915.

66. Whether points noted for action at previous inspections have been attended to?

67. Any irregularities or informalities observed in the course of inspection, whether connected with the printed questions or not and suggestions, if any, for improving the efficiency of the working of the office.

No. 44—E. A. G., dated 22nd February 1916.

MEMO OF SPECIAL QUESTIONS FOR THE INSPECTION OF THE DIFFERENT BRANCHES OF THE SURVEY AND SETTLEMENT DEPARTMENT.

I—Superintendent's Office.

Potgi Branch.

1. Is the work of revision of potgi under the standing orders brought up-to-date?

2. Are references from taluks received in proper time?

3. Is any revision unduly delayed, and, if so, why?

Inam Branch.

4. Is the settlement of Excess Tarav Patrak brought up-to-date?

5. Are the corrections received from the Inam Department duly noted in the Inam Registers of the office?

Settlement Branch.

6. Do requisitions receive prompt attention from the Revenue authorities? Have timely reminders been issued in the case of delay?

7. Are the various statements and statistics connected with settlement work being worked out with the necessary care?

II—Headquarters and Record Office.

Akar Branch.

8. Are Akarbands and Faisal Patrikas of taluks into which revision settlement was introduced in the previous year properly prepared and promptly despatched to taluk and district?

9. Is the correction of Akarbands promptly attended to? How many are pending at the time of inspection, and what are the reasons for pending, if any?

10. Are "Raddi pans" of Akarbands properly arranged and filed and entered in the register maintained for the purpose?

11. Are the Akarbands and Faisal Patriks properly arranged so as to be available at once for reference whenever wanted?

12. How many Akarbands were prepared newly during the past year and how many were corrected?

13. How many Faisal Patriks were copied and sent to the districts and taluks in the past year?

14. Are the records requiring the corrections of Akarbands, etc., duly received from the Durasti Branch? How many were received during the past month and how have they been disposed of?

15. Is an atchkat (area) register maintained? Is it brought up-to-date? Are changes entered therein as they occur? Have the figures therein been duly verified according to rules?

Drawing Branch.

16. Is any English map, *i.e.*, either taluk or district or provincial map under preparation? How many English maps were drawn last year and got printed?

17. Is the stock of taluk and district maps sufficient for future issue? Are the balances in stock correct?

18. Are topographical changes entered in the topo sheets and sent to the Chief Engineer annually?

19. Are village maps prepared and issued soon after the settlement of taluks?

20. How many mappers are employed in drawing copies for the Litho Press, and how many on pakka maps which are deposited in the records for reference?

21. Is the work of the mappers carefully scrutinized according to rules?

22. Are accounts of maps drawn maintained? Who maintains them and are entries effected in the register soon after the maps are drawn and examined?

23. Who has the custody of the instruments in use for drawing and surveying? Are they in good order? How are receipts and issues being registered?

24. Are the katcha maps given to mappers for drawing, carefully handled by them? Have any been missed and, if so, why?

25. An approximate idea of the work to be done during the current year might be given.

Durasti Branch.

26. Are all the men employed here trained in the field work?

27. Is the correction work attended to properly? How many cases are in arrears and why?

28. Has the Branch been prompt enough in passing on to the mapping branch maps of resettled villages for printing?

29. How many were sent, how many are pending and why?

30. Are sub-divisions of assessed survey numbers carefully appraised with reference to soil classification?

31. How are cases of disputed boundary verified? Are there any cases on hand?

32. How are villages amalgamated in the survey records and maps and how are they separated? Is there any case pending?

Stores Branch.

33. Is a register of dead stock maintained and accounts rendered annually?

Village Map Records.

34. Are the map accounts kept up-to-date?

35. Are the maps arranged talukwar and kept in separate bundles for ready reference?

36. Are requisitions for maps promptly attended to?

Litho Press.

37. How many Press Machines are there? Are they all in working order?

38. Is there a sufficient stock of Litho Stones on hand? Are the stones being carefully handled?

39. Do the drawings for the Press appear neatly on stones? How are cases of bad drawings treated?

40 What is the total number of maps litho printed last year and how many pakka maps were drawn?

41. What is the average cost of the minor articles required for the Press per month?

42. What is the size of the biggest stones in use? How are large maps printed?

43. Are maps handed over to the office as they are printed and is an account of this maintained by the Press branch?

44 What is the system of issuing paper for the Press and what precautions are taken to avoid waste of paper? Does the Store-keeper supervise this properly?

45 Are pieces of printed village maps joined properly? Are maps mounted on cloth? How many maps are being mounted in a day?

46 Wherefrom were the inkrollers obtained and at what cost? How many inkrollers are in use and are they in good condition?

III—DEPUTY SUPERINTENDENT'S OFFICE.

47. Are the following accounts maintained with entries posted up-to-date?

1. Cash Book proper.
2. Khirdi or Golaberiz.
3. Khate or Ledger.
4. Detailed Bandh Account
5. Detailed Contingent Account.
6. Detailed unadjusted pay of Bandh peons
7. Order Book for Contingent Charges.
8. Service Stamps Account.

48. Are the several postings correct and detailed as per departmental rules?

49. Are balance sheets from different treasuries being regularly received and balances verified from the office accounts? Are errors or omissions, if any, being readily taken note of and got corrected promptly?

50. Are remarks made against the names of individuals in the Pagar Patraks fully explanatory regarding leave, fine, etc.? Does the officer check the Pay Bill?

51. Is the Insurance Statement invariably attached to Pay Bills, with explanations for non-recovery of premia, lumpsum recovery, etc.? Are premium receipts signed in time?

52. Are travelling allowance by way of Railway fares, charges for conveyance of Dead Stock by measurers, etc., regularly paid and receipts taken from the parties? Do the journeys charged for correspond with the entries in diaries? Are the distances correct and varified from the road map?

IV—Field Establishments.

53. Do members of Field Establishments maintain regular diaries and submit daily and monthly reports regularly?

54. Is sufficient work being turned out by the members of Field Establishments from the commencement of the field operations up to the date of inspection?

55. Have the Assistants taken the required number of tests?

56. Have they taken any tests of their Surveyor's work?

57. Do the Field Officers go on regular inspection work?

58. What noticeable errors are found in the field work?

59. Are the test inspections made by the inspection officer found to be satisfactory?

60. Is the Barsati Tapasani work carried on in an efficient manner?

Rules for Inspection.

No. 624—E. A. (G.), DATED 21ST FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No 174—S, dated the 28th December 1915, from the Director of Agriculture in Mysore, submitting proposals for the periodical inspection of the offices under his control.

Order No. 624—E. A. (G.), dated 21st February 1916.

The following arrangements are prescribed for the inspection of the offices of the Agricultural Department:—

(1) The office of the Director of Agriculture, including the Implement Depot and the offices of the Deputy and Assistant Directors will be inspected by the Director.

(2) The Experimental Farm will be inspected by the Director or other officer deputed for the purpose.

(3) The offices of the District Agricultural Inspectors will be inspected by the Divisional officers concerned.

2. The inspections will take place once a year between the months of January and April.

3. The Director will submit his inspection reports to Government, and other officers their reports to the Director, in the form appended to this order.

4. An Inspection Minute Book should be maintained in every office as required in Government Order No. G. 10870-10918—E. A. 43-14, dated the 10th April 1915.

V. R. THYAGARAJA IYER,
Secy. to Govt., Rev. Dept.,
in charge, General Department.

To—The Director of Agriculture in Mysore.

Exd.—C. R.

No. 624--E. A. (G.), dated 21st February 1916.

Form of questions for the Inspection of Offices of the Agricultural Department.

1. Office or Farm inspected.

2 Officer in charge.

3 Inspecting Officer.

4 Date of Inspection.

5 Previous Inspection, Date.

6. Previous Inspection, Inspecting Officer

7. Have notes of previous inspection been communicated and when?

I—General.

8 Is the office accommodation sufficient and suitable? Are the rooms and premises kept clean?

9. Is an attendance register in use? Is the attendance regular? Who checks the register daily?

10. How many clerks are working in each branch of the office and what is the qualification of each?

11. Area of the Farm under:—

	A.	g.
(*a*) Wet	..	
(*b*) Dry	..	
(*c*) Garden	...	
Total .		

12. Is a register maintained of the crops raised on the various plots and their disposal? Is it posted up-to-date?

13. Is accommodation for the Farm staff and the live-stock sufficient and suitable? Are the rooms and premises kept clean?

14 Are the acquittance and muster rolls maintained in proper order?

Service Registers, Lists of Establishments, etc.

15. Is an up-to-date list of the establishment both clerical and menial, maintained?

16. Is a record of the qualifications and services of the ministerial officers maintained up-to-date?

17. Is a service register maintained for every permanent official and brought up-to-date? Are these registers arranged in order and kept in the records in a separate box? Who keeps the key of the box?

18. Is an office order book maintained? Are orders of leave, punishment, etc., regularly recorded and given effect to?

19. Is a register of applications for appointments maintained and are selections made therefrom?

20. Are all appointments made in accordance with rules pertaining to the Department?

Distribution of Work.

21. Is a record of the distribution of work among the several clerks in each branch maintained? Is the work assigned to each official sufficient without being excessive?

22. Is a list of references pending in the office, maintained and submitted once a month to the Head of the Office?

23. Are similar monthly statements called for from subordinate offices and scrutinised?

24. Are diaries regularly received from subordinate offices and properly filed?

25. Is a statement of the periodical reports and returns due from each branch prepared and maintained up-to-date? Are the due dates, the dates of actual submission and the names of the clerks responsible for their preparation noted therein? Is it scrutinised monthly by the head of the office? (*Vide* Rule 6 of the Efficiency Rules)

26. How many and which returns were overdue at the time of inspection?

Furniture List.

27 Is a register of furniture maintained? Are all articles of furniture entered therein together with details as to the cost and date of purchase of each? Is the register verified once every quarter and the result reported to the head of the Office? Is a similar list maintained for tents?

28. Is a register of live stock maintained? The condition of the live stock at the time of inspection may be noted.

29. Is a complete list of implements maintained? The condition of the implements at the time of inspection may be noted.

Stationery and Forms

30. In whose custody is the office stationery? Are the stock and issue registers regularly maintained? Are they submitted monthly for the inspection of the officer in charge? Is a verification by stock-taking done once a year?

31. Is a general indent book maintained for monthly issues of stationery?

32 Who keeps the stock of forms? Where are they kept? Are they neatly arranged? Are all receipts and issues noted in a register?

33. Is a register of periodical issue of stationery maintained? (*Vide* Rule 36 of the Stationery Rules.)

File of Standing Orders.

34. Is a complete set of the standing orders of Government relating to the work of each branch of the office maintained? Are circular instructions received from superior authorities maintained in the several departments in separate files? Are these files complete and, up-to-date?

35. Is each file provided with a table of contents and if bulky, also an index?

36 Is a similar file maintained of circulars issued from the office?

Library.

37. In whose charge is the office Library and where is kept?

38. Is a register maintained for entering books and publications as they are received and is it written up-to-date?

39. Is a catalogue of the office Library maintained up-to-date?

40. Are all books received into the Library correctly labelled and deposited in their appropriate places?

41. Are all correction slips inserted in their proper places in the volumes of enactments, rules, etc.?

42. Are any books issued without a receipt or lent to strangers without the permission of the head of the office?

43. Is a monthly report of books removed and not returned submitted?

44. Are cases of loss of or damage to any books reported promptly and orders obtained for their replacement?

45. Is a list of maps maintained? With reference to the circulation of Journals, etc., from Central Office, does each officer keep a record with dates of the journals he receives and of those he passes on?

Tour.

46. How many days in a month on an average has the officer been on tour?

II. Correspondence Registers.

47. Are the registers of inward and outward correspondence properly maintained with cross references regularly marked?

48. How many of such registers are maintained? Are a peon book and tappal book maintained?

49. Are the registers written up neatly? Are the entries concise and clear?

50. Is there any delay in the fair copying and despatching of letters? Are all papers despatched invariably on the day they are signed or the following day? A few issues may be examined with reference to the refer book, peon book and tappal book.

51. Are all the registers periodically examined by the head of the branch and the ministerial head of the office and signed by them in token of their inspection?

III. Cash and Contingencies.

52. Are the following registers prescribed by Rule 25 of the General Rules of Office Procedure maintained?

i. Cash Book.
ii. General ledger or classified abstract of the monthly totals of the Cash Book.
iii. Contingent Register.
iv. Order Book for contingent charges.

53 What is the amount of permanent advance held by the office? Is an account of it correctly kept? What is the balance on hand? Is it forthcoming?

54. Is there any money on hand awaiting remittance to the Treasury or payment to parties? Details may be furnished.

55. Are there any long standing advances made out of the office imprest, awaiting adjustment? Details may be furnished.

56. Are all charges incurred on account of contingencies entered in the contingent register from day to day? (*Vide* Article 81 of the Civil Account Code) Are totals struck at the end of the month?

57 The necessity for any unusual charges may be scrutinised.

58. Are all contingent charges incurred under due authority, sanction of higher authorities being obtained where necessary?

59. Is the abstract contingent bill drawn at the end of each month in the manner laid down in Article 83 of the Civil Account Code and are the initials of the head of the office obtained?

60. Is the expenditure kept within the budget grant?

61 Are the detailed contingent bills of each month submitted with vouchers regularly by the 1st week of the succeeding month as required by para 210 of the Mysore Treasury Manual? Are all disallowances promptly deducted from the succeeding contingent bills?

62. Are salary bills prepared with reference to the attendance register leave register and office order book? Are drafts of the pay bills maintained?

63. Is an acquittance roll maintained? Are all salaries drawn duly disbursed and proper receipts taken therein? Is a stamped receipt obtained for payments over Rs. 20? Is the register examined every month by the head of the office?

64. Are the bills and payments posted in the cash book?

65. Is undisbursed pay shortdrawn invariably in the pay bill of the next month?

66. Is necessary sanction obtained for drawing the pay or allowances of incumbents of appointments requiring sanction of the higher authorities?

67. Are all sums drawn on travelling allowance bills disbursed and acquittance taken?

68. Are drafts of the office travelling allowance bills maintained in a register?

IV. Records.

69. The rules, if any, under which the records are arranged may be quoted. If no such rules exist, the system of arrangement followed subjectwar or chronological, etc., may be briefly explained.

70. Are all the records sorted according to the prevailing system? If not what is the quantity of papers remaining to be sorted? What time is necessary to complete their sorting?

71. In whose charge are the records kept? Are records permitted to be removed without a substitute slip signed by the requisitioning official?

72. A list of the records taken out of the record room and outstanding for long periods may be given.

73. Have rules been framed for regulating the periodical destruction of unserviceable records and have all time-expired papers been eliminated according to such rules?

V. Miscellaneous.

74. Whether the points, if any, referred to in the previous inspection report have been attended to.

75. General remarks.

Cash security to be furnished by Marahmat Head Clerks.

No. 195-207–P. W. 955-67, DATED 3RD FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ AGAIN—

Government Order No. R. 5042-89—L. R. 408-14-1, dated the 21st December 1914, sanctioning a revised scheme for the restoration and construction of minor tanks in the State.

READ—

Correspondence ending with letter No. 3370—G. A. I. 754, dated the 5th November 1915, from the Comptroller, Public Works Branch, regarding the advisability of taking a cash security from the Marahmat clerks.

Order No. 195-207—P. W. 955-67, dated 3rd February 1916.

The cash work of Marahmat clerks has been much increased by the revised scheme for the restoration and construction of minor tanks sanctioned in December 1914. They have to deal generally with cash transactions, maintain cash books, write out cheques and make payments in settlement of claims relating to the Marahmat works and, in these respects, their duties are similar to those of Cashiers in Public Works Divisions. The Comptroller therefore suggested that it would be advisable to take a cash security of Rs. 250 from each of them.

2. The views of the Deputy Commissioners on the suggestion were then called for, as the Marahmat establishment is under their direct control. The opinions furnished by them are, however, divided.

3. In these circumstances, Government are pleased to approve of the Comptroller's proposal to take a cash security of Rs. 250 from each of the Marahmat Head Clerks. The amount may be recovered in ten monthly instalments.

KARPUR SHRINIVASRAO,
Secy. to Govt., P. W. D.

Introduction of the Block System of Irrigation in certain villages under the Marikanave Left Bank Canal.

No. 229-33—P. W. 1110-14, DATED 5TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT

READ—

(1) Government Order No. 1608-12—9875-9, dated the 5th December 1912, sanctioning the introduction of the Block System of Irrigation under the Marikanave Reservoir.

(2) Government Order No. 707-11—3364-68, dated the 9th April 1914, according approval to the detailed lists of blocks drawn up as well as to the demand statement of water-rate to be collected from each village.

(3) Government Order No. R. 5724-34—L. R. 194-13-10, dated the 31st December 1914, passing orders regarding expansion of cultivation under the Block System of Irrigation under the Reservoir.

(4) Letter No. 1775, dated the 24th November 1915, from the Executive Engineer, Irrigation Division, submitting, for sanction, proposals for application of the Block System to the lands in the Krishnambudhi, Alur and Kasavanhalli villages, situated under the left bank canal.

Order No. 229-33—P. W. 1110-14, dated 5th February 1916.

Sanction of Government is sought for the introduction of the Block System in respect of lands in the following villages:—

(1) *Krishnambudhi.*—This is the bed of a breached major tank of an area of about 320 acres, out of which 202 acres and 10 guntas are now proposed to be brought under the Block System. A portion of the bed, about 109 acres and 4 guntas, has already been included under the blocks, as sanctioned in Government Order No. 1608-12—9875-9, dated the 5th December 1912. The whole bed of the tank has since been sub-divided into *phodes* by the Revenue Survey Department and, when put up for auction, was eagerly taken up. The raiyats who have paid a high price for the plots are keen about the intensive cultivation of these lands, which are fit for growing high-rated crops. It is now proposed to extend the Block System to an area of 202 acres and 10 guntas.

(2) *Alur* is a *Sarvamanya* village with about 1,000 acres of land under the canal. It was excluded from the benefit of canal water on a previous occasion, as the Inamdars did not agree to the conditions of the Block System. The raiyats holding lands have now agreed to the introduction of the Block System and payment of water-rate in advance. The Deputy Commissioner recommends that, as the holders agree, these lands may be brought under the system as early as possible, and further states that the consent of the Inamdar does not appear to be necessary for a temporary arrangement like the present one. The area proposed to be brought under the Block System is 213 acres and 12 guntas.

(3) *Kasavanhalli* is a Jodi village with about 500 acres under command of the canal, but the lands are quite close to the dwelling houses and as such fall under the limit within which canal irrigation is prohibited. A suitable site higher up has been selected and the villagers have agreed to shift themselves as early as possible. In the meanwhile, they urge that water may be given them immediately. But until they shift their village, it is not desirable to relax the existing orders in

their favour, as it will afford a precedent for other villages which are already clamouring for permission to cultivate within the prohibited area: but there is no objection to accord sanction, subject to the condition that water will be given only after the village is shifted. The area to be brought under the Block System is 143 acres and 20 guntas.

2. After due consideration, Government are pleased to sanction the proposals for the introduction of the Block System in the said three villages, as indicated above. But, in the case of the Alur and Kasavanhalli villages, it is necessary that the water-rate should be actually paid *in advance*. Otherwise, there may be difficulties in its recovery as the Inamdars, who do not agree to the conditions of the Block System, cannot be made liable for the water-rate when the raiyats themselves have no permanent rights of occupancy in the lands and are tenants at will or from year to year. The Revenue Officers concerned should therefore insist upon the payment of the water-rate in advance before water is supplied.

3. The detailed lists of blocks in the three villages should be completed and printed within six months from the date of this order.

4. The Executive Engineer, Irrigation Division, should expedite the submission of the estimate, which is stated to be under preparation, for draining the water-logged area in the Krishnambudhi village.

Levy of Rent on Government Buildings the Capital Cost of which is increased.

No. 361-401—P. W. 1949-1989, DATED 28TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

The following letter No. 3565—G. A. II. 600, dated the 15th November 1915, from the Comptroller, Public Works Branch:—

"I have the honour to state that, under the rules in force, rent due by an officer for occupying a Government residential building is calculated at ½ per cent on the capital value of the building or at 10 per cent of the salary of the occupant, whichever is less—*vide* Government Order No. 291-324—2149-82, dated the 26th March 1908. The assessment of rent has accordingly to be revised from time to time according to fluctuations in the capital cost of the building or the salary of the officer occupying it. In cases when the rent is calculated on the basis of salary, the change in rent on account of change in salary of the occupant and the commencement of the period for which the revised rent is leviable are easily determined. Even in the case of officers who are granted promotions with retrospective effect, there can be no question regarding the recovery of the arrears of rent due from them owing to the increase in rent leviable from them for the past period for which they are allowed to draw supplemental salaries on account of such promotion, nor can there be any objection even for such arrears of rent being recovered in a lumpsum even though the amount may be occasionally considerable, as the officers draw their arrears of salary also in a lumpsum.

2. As regards the calculation of rent on the basis of the capital cost of buildings on which fresh outlay may be incurred from time to time on account of additions or improvements so as to raise the capital cost, the question is from what date the assessment has to be increased. It is obvious that the tenant cannot be asked to pay enhanced rent until the improvement work is completely executed and he begins to enjoy the benefit of such improvement. A simple working rule will be to levy the increased rent from the 1st of the month succeeding that in which the addition or improvement is completely executed, even though complete payments may not have been made to contractors or the work accounts closed. The Executive Engineer should, in that case, take particular care that the entire outlay which will be finally incurred on the work is calculated beforehand as accurately as possible in order to arrive at the increased capital cost on which the rent is to be based. If, however, there should be found any difference later on in the actual outlay after the work accounts are closed, which will be rare, the necessary alteration in rent may then be effected. In the meantime, the tenant may be informed that the alteration in the assessment is provisional pending closing of the work accounts.

3. The above proposal is submitted for the orders of Government."

Order No. 361-401—P. W. 1949-1989, dated 28th February 1916.

The proposal made in paragraph 2 of the letter read above, for calculating rent due to fluctuation in the capital cost of buildings, is suitable and may be adopted.

Office of the Traffic Manager, Mysore State Railways.

No. 2278-82 –Ry. F. 65E-15-16, DATED 18TH FEBRUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

READ—

Government Order No. 547-51—Ry. F. 65E-15-16, dated the 26th August 1915, sanctioning a scale of establishment costing Rs. 175 per mensem required for the office of the Traffic Manager, Mysore State Railways.

2. Letter No. 12457, dated the 18th December 1915, from the Agent, Mysore State Railways, explaining the need for the additional staff for the Traffic Manager's Office and requesting sanction to the appointment of an additional clerk on a pay of Rs. 25—2½—30 and a Mutchi on Rs. 12—15.

3. Note No. 390, dated the 17—18th January 1916, from the Secretary to the Government of Mysore for Railways, recommending sanction to the appointment of the additional clerk above mentioned and a Mutchi on Rs. 12 instead of Rs. 12—15.

Order No. 2278-82—Ry. F. 65E-15-16, dated 18th February 1916.

The appointment of an additional clerk on Rs. 25– 2½—30 required for the office of the Traffic Manager, Mysore State Railways, is sanctioned as a temporary measure. Government consider that a Mutchi is unnecessary as it is not usual to give Mutchis to small offices.

K. KRISHNAIENGAR,
Offg. Secy. for Railways, Govt. of Mysore.

To—The Secretary to Government, General Department.
The Secretary to Government, Revenue Department.
The Secretary to Government, Financial Department.
The Comptroller, Public Works and Railway Branch (through the Financial Department.)
The Agent and Engineer-in-Chief, State Railway Construction Department.

Exd.—C. R.

No. 2365-67—Ry. F. 229-15-16, dated 26th February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

Read—

Memo No. 180, dated 7th January 1916, from the Engineer-in-Chief, State Railway Construction Department, submitting for orders a copy of letter No. 4667—R. C. 1198, dated 4th January 1916, from the Comptroller of Mysore, Public Works and Railway Branch, regarding the disposal of Reports of Audit Inspection of Divisional offices of the State Railway Construction Department.

2. Note No 381, dated 16th—17th January 1916, from the Secretary for Railways, suggesting the procedure to be adopted in the matter and requesting approval thereto.

Order No. 2365-67—Ry. F. 229-15-16, dated 26th February 1916.

Government direct that the following procedure suggested by the Secretary for Railways in the matter of the disposal of reports of periodical audit inspection of the Divisional offices of the State Railway Construction Department, may be adopted :—

The reports have to be submitted by the Comptroller to the Secretary to Government through the Engineer-in-Chief, State Railway Construction Department, who should record his own views on the irregularities brought to notice and submit them to Government together with the explanations of the Executive Engineers. Government with necessary orders will return them to the Comptroller through the Engineer-in-Chief.

2. Government further direct that Executive Engineers and the Engineer-in-Chief, State Railway Construction Department, should take prompt steps to remove such of the irregularities as could be disposed of by them without awaiting orders of Government on the Inspection Report.

3. The reports received till now may be promptly disposed of in accordance with the above order.

K. KRISHNAIYENGAR,
Offg Secy. for Rys., Govt. of Mysore.

To—The Financial Secretary to the Government of Mysore.
The Comptroller, Public Works and Railway Branch (through the Financial Department.)
The Engineer-in-Chief, State Railway Construction Department.

Bxd.—C. R.

Bangalore-Chikballapur Light Railway.

No. 2374-76—Ry. F. 17E-15-16, dated 28th February 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

Read—

Note Nos. 376 and 409, dated 12th and 24—25th January 1916, respectively, from the Secretary for Railways, submitting for sanction (1) a proposition statement of establishment required for the Bangalore-Chikballapur Light Railway during the year 1915-16, providing for an expenditure of Rs. 9,627 and (2) a re-appropriation statement transferring a sum of Rs. 7,000 from IV *(b)* "Bridge work" to meet the excess involved under "XII General Charges" of the construction estimate sanctioned for the Railway.

Order No. 2374-76—Ry. F. 17E-15-16, dated 28th February 1916.

Both the proposition and re-appropriation statements referred to above are sanctioned.

K. KRISHNIYENGAR,
Offg. Secy. for Railways, Govt of Mysore.

To —The Financial Secretary to the Government of Mysore.
The Comptroller, Public Works and Railway Branch (through the Financial Department).
The Engineer-in-Chief, State Railway Construction Department.

Exd.—C. R.

6	J 3342—Pris 5-15-10 ...	17	The I.-G. of Prisons in Mysore.	Records his report re the recapture of escaped prisoner Syed Sab, and the punishment awarded to him.
7	J 3371—Pris 6-15-4 ...	19	The Senr. Surgn. with the Govt. of Mysore	Records the report of the Official Visitors on the criminal lunatics of the State confined in the Lunatic Asylum, Bangalore, for the half-year ended the 31st December 1915.
8	J 3446-7—Pris 38-15-4 ...	23	The I.-G. of Prisons and the Comptr. to Govt.	Sanctions an extra expenditure of Rs. 4 incurred in purchasing two reels of galvanized barbed steel wire for the Bangalore Central Jail.
9	J 3450—Pris 1-15-4 ...	23	The I.-G. of Prisons ...	Records the statement of fresh men entertained in, and of promotions given to officials of, the Prisons Department for the quarter ended 31st December 1915.

Serial No.	Proceedings: Number	Date	To whom sent	Subject and Order
10	Pol 844—Pris 13-15-12 ...	24	The First Asst. to the Hon'ble the Resident in Mysore.	Requests that the Baroda Durbar may kindly be moved to arrange for the early payment of Rs. 958-15-3 already claimed as also of another sum of Rs. 548-7-7 due to Mr. Palpu on account of additional leave allowances by reason of the extension of the privilege leave granted to him and of his pay during the joining time availed of by him in proceeding to Bangalore after being relieved at Baroda.
11	J 3481—Pris 46-15-2 ...	25	The I.-G of Prisons in Mysore.	Grants permission to the Rev. G. E. B. Scott of the Bishop Cotton School, to impart religious instruction to the European Protestant convicts of the Bangalore Central Jail, subject to the provisions contained in Rule 663 of the Mysore Jail Mannual and states that the instruction should not be forced on any one who does not want it.
12	Pol 851—Pris 24-15-2 ...	25	The First Asst. to the Hon'ble the Resident in Mysore.	Intimates that the Durbar have decided to allow 4 oz. of meat once a week in lieu of *dhall* to Indian prisoners who are accustomed to meat diet and requests him to favour the Durbar with the views of the Hon'ble the Resident if a similar change may be made in the diet of the non-vegetarian convicts of the Civil and Military Station.
13	J 3551—Pris 48-15-2 ...	29	The I.-G. of Prisons in Mysore.	States that the conduct of Mr. E. W. L. Tate, amounts, no doubt, to misappropriation but without any criminal intention and that, in this view, an order of refund of the amount taken by Mr. Tate seems sufficient.
